# Vacancy Sport

## FUNCTION DESCRIPTION

The sports team is responsible for organizing sports-related activities and competitions for Group T students. For big activities such as the 24-hour run, the Survival Of The Students and for competitions such as the IFBs, there is a close collaboration with LOKO Sport. The sports team is also often in contact with sports teams from other associations to discuss competitions and organize activities. Organizing original activities and motivating students are also very crucial for this position.

## WHO WE ARE LOOKING FOR

For the sports team, we are looking for passionate people with a love for sports who also want to roll up their sleeves to set up great activities. You will often be in contact with Group T students and sports teams at meetings and activities, so some social skills are definitely not to be missed.

## WHAT WE HAVE TO OFFER

During your time with the Sports Team you will learn to communicate efficiently and professionally with other associations, with LOKO and with different sports companies. Being creative and being able to think on the spot are skills you are going to be tested on and improve in. You will also be working with a great team!
