

# SECTOR NIGHT CHEMISTRY & LIFE SCIENCES

## Company Guide

Industria

# PREFACE

## **Welcome to the sector night of Chemistry & Life Sciences!**

Some of you are already graduating this year. Maybe you will continue your studies, but for others, life as a student is over. This may come as a surprise to you, especially if you don't know yet how you will continue your life after Group T. Therefore, this evening is a unique opportunity to make all of this a lot clearer!

Tonight you get the chance to meet companies and see what they have to offer to start your career as an engineer. The world needs young and enthusiastic engineers like you. Everything you learned during your career at Group T is of enormous value in the future. This evening is your chance to look in which direction you want to go and our companies are only too happy to help. Even if you are not yet in your final year, this evening is ideal for looking for an internship or a thesis topic and expanding your network! We hope this event will help you open the right doors and shape your future. We would like to thank you for your participation and wish you all the best in the future!

## Description

Imec was founded in 1984 and is today the world's largest independent research and innovation center for nanoelectronics and digital technology. Headquartered in Leuven, Belgium, imec operates globally, with offices across Belgium, Europe, the USA, the UK, and Asia.

Our mission is to lead in R&D while engaging in impactful local projects with businesses and governments, and we have been doing so for over 40 years.

As the chip lab of the world, imec drives the advancements that power today's most cutting-edge technology. By making chips smaller, faster, more affordable, and more sustainable, we tackle the most pressing global challenges, such as climate change, pollution, accessible healthcare, and sustainable food provision. From the chips in your smartphone to the innovations transforming health, automotive, agritech, energy and beyond: imec is shaping the future.
