Preface

Welcome to the 39th edition of the Job Fair by Industria & Group T Campus!

As a (future) graduate at Group T Campus, you are on the verge of a new chapter in your life. Soon, you will be able to put your knowledge and skills (even more) into practice, and we are confident that you will continue to strive to make this world a better place in a new environment.

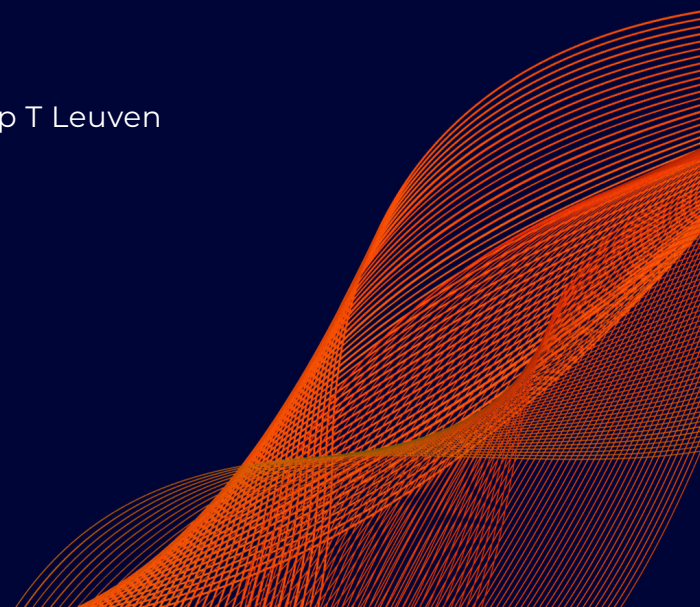

Therefore, we are thrilled to have you join us today as you take the next step in your professional journey. This unique Job Fair is an exciting opportunity for Engineering Technology graduates like you to meet a diverse group of potential employers, network with industry leaders, and explore a wide range of post-graduate or career opportunities.

Whether you're looking to start your career, continue your studies, expand your professional network, or learn about the latest industry trends, today is your chance to connect with organisations that are eager to find talented individuals like you.

We encourage you to take full advantage of this event - introduce yourself, ask questions, and explore what these companies have to offer. Your skills, education, and passion for innovation are exactly what employers are looking for.

We wish you the best of luck and hope you find the perfect opportunity that aligns with your goals and aspirations. Let's make today a great step towards your future success!

Prof. Toon van Waterschoot, Campus Chair Group T Leuven

ABOUT US

ABB is een technologieleider op gebied van elektrificatie en automatisering en maakt een meer duurzame en grondstofzuinige toekomst mogelijk. Voortbouwend op meer dan 130 jaar uitmuntendheid, zetten wereldwijd 105.000 werknemers van ABB zich in om innovaties te stimuleren die de industriële transformatie versnellen. In de Benelux telt ABB 2.000 werknemers en heeft het 18 locaties, verspreid over de drie landen Nederland, België en Luxemburg. We zijn een multinational met persoonlijke aandacht voor jou als medewerker. Bij ABB staat work/life balance hoog in het vaandel. Bij ons krijg je de flexibiliteit om zowel op kantoor als deels vanuit huis te werken. We ondersteunen je daarnaast om gezond en vitaal te blijven. We bieden onder andere een aantrekkelijk fietsplan zodat je ook in je vrije tijd ook vitaal blijft. Bij ABB staan we naast een duurzame samenleving ook voor duurzaam werkgeverschap. We ondersteunen je in het verder ontwikkelen van je persoonlijke vaardigheden d.m.v. diverse trainingen en opleidingen.

OUR OFFER

We hebben op dit moment verschillende openstaande functies op verschillende afdelingen. Van technische tot commerciële functies, er is voor elk wat wils. Bezoek onze carrièrepagina om de mogelijkheden te ontdekken en kom werken bij een bedrijf dat innovatie stimuleert in de wereld van technologie en energie. Word lid van ABB België <https://careers.abb/global/en/en/join-abb-belgium-luxembourg>

ACE Belgium

📍 Lummen
🌐 <https://www.ace.eu>

CONTACT

✉ lummen@ace.eu
☎ +32 13 35 39 06

ABOUT US

ACE development & engineering is een innovatieve partner voor engineeringsvraagstukken. We bieden een hybride dienstverlening waarbij onze medewerkers ingezet worden op diverse projecten in diverse sectoren. Deze projecten worden uitgevoerd op locatie bij de klant of op een van onze eigen kantoren. Hiernaast voeren we uiteenlopende en innovatieve machinebouwprojecten uit van A-Z. Onze eigen assembly & testing facility staat ons en onze engineers toe om machines zelf te assembleren en te testen alvorens ze bij de klant in bedrijf te stellen.

OUR OFFER

Als je op zoek bent naar een job met veel leermogelijkheden en variatie ben je bij ACE alvast aan het juiste adres. Vanzelfsprekend mag je een mooi pakket verwachten voor je inzet dat bestaat uit een brutoloon, aangevuld met een uitgebreid pakket aan extralegale voordelen (waaronder een bedrijfswagen met tankkaart, maaltijdcheques, ecocheques, groeps- en hospitalisatieverzekering, nettovergoeding en meer).

Actemium

📍 Herentals
🌐 <https://www.actemium.be/>

CONTACT

✉ joke.thys@actemium.com
☎ +32 488 38 33 62

ABOUT US

Actemium België geeft advies over, ontwerpt, realiseert en ondersteunt industriële processen. We bieden ook service en opleidingen.

Onze activiteiten: elektriciteit & instrumentatie, IT/ICT, automatisering en mechanics & piping.

Het is onze missie om klanten te helpen met het verbeteren van hun concurrentievoordeel en industriële prestaties.

Vandaag telt Actemium Belgium 900 medewerkers, verspreid over 11 vestigingen in België en 1 in Frankrijk. Actemium is een merk van VINCI Energies.

OUR OFFER

Gepassioneerd door elektriciteit, instrumentatie, automatisering, software development of montage? Bij Actemium, merk van VINCI Energies, vind je jouw perfecte match. Niet alleen omdat we internationaal marktleider zijn in Solutions & Services voor de industrie. Ook omdat wie kiest voor Actemium, kiest voor innovatie. Samen met jou en onze klanten gaan we verder dan het creëren van oplossingen... We bouwen aan de industriële omgeving van morgen.

CONTACT

✉ caithlin.vandorpe@ae.be
☎ +32 472 87 04 25

ABOUT US

AE is een consultancy die organisaties helpt om duurzaam succesvol te zijn in een steeds veranderende digitale wereld.

We versterken de competitieve positie van onze klanten door hun eigen manier van werken te verbeteren en door samen sterke IT-oplossingen te bouwen die business noden ondersteunen en vooruit stuwten. Met fundamenteën in sterke data/software-architectuur, een vernieuwende mindset die innovatie omarmt en sterke methodologieën en best practices creëren we een nauwe samenwerking met onze klanten. Samen bouwen we zo aan innovatieve businessmodellen die echt impact maken.

Als Great Place to Work geloven we in de kracht van zelfsturende teams, kennisdeling en voortdurende groei. Onze mensen krijgen de ruimte om initiatief te nemen, zich te ontwikkelen en elkaar te inspireren met nieuwe technologieën en inzichten.

OUR OFFER

Jaarlijks zijn we bij AE op zoek naar een groepje pas afgestudeerden die in september kunnen opstarten in ons Apprenticeship. Dit is een traject van 8 maanden waar je na een intensieve opleidingsperiode van 2 weken ben je klaar om aan je eerste project te beginnen en werk je samen met onze klanten en andere AE'ers op uitdagende projecten. Op dit project start je niet alleen maar samen met je Buddie waarbij je steeds terecht kan voor vragen. Of start je in de AE Studio om aan onze eigen producten mee te bouwen. De richting waarin je groeit bepaal je zelf samen met je lange termijn coach afhankelijk van je interesses. Zo kan je als technisch profiel groeien richting Front end engineering, Back end engineering, software architectuur, integratie, Data science & Data engineering, AI-engineering, etc. Als analist kan je richting Business analyse, Functionele analyse, Information management of analyse binnen integratiecontext gaan.

agap2 Belgique

📍 Brussels

🔗 <https://agap2.com/belgium/>

CONTACT

✉ domitille.charly@agap2.be

☎ +32 498 64 08 18

ABOUT US

agap2 is a European engineering consultancy active across various industrial sectors such as large infrastructure works, process industries (life science, food & beverage, chemistry), energy, and transport.

Present in 13 European countries and established in Belgium since 2013, we collaborate with partners across the country – ensuring we can offer a project close to your home.

OUR OFFER

Being an agapian means first and foremost demonstrating versatility and a genuine openness of mind. It also means being curious, adaptable, autonomous, and proactive to meet the diverse challenges of our missions. Finally, it involves ensuring clear communication and effective collaboration with all stakeholders.

- As a consultant, you benefit from an attractive package and contractual stability that supports you throughout your mission with peace of mind.
- Close support with dual follow-up: one from HR and the other from your Business Manager.
- Tailor-made continuous training, adapted to everyone's needs.
- A true career catalyst offering multiple opportunities for growth and development.
- A strong company culture: before being a consultant, you are first and foremost part of the agap2 community, where we create moments of connection and conviviality.

Agristo NV

📍 Wielsbeke
🔗 <https://jobs.agristo.com/nl>

CONTACT

✉ invoices@agristo.com
☎ +32 477 58 01 43

ABOUT US

Bij Agristo verleggen we (jouw) grenzen. We willen dé globale referentie zijn voor alle diepgevroren op aardappel geïnspireerde producten. We heten je welkom in het Potatoverse: een omgeving waar onze Potatoholics kunnen bloeien en groeien, waar we kansen zien in uitdagingen en waar morgen beter wordt dan vandaag. Als mensgerichte organisatie geloven we dat betere menselijke ervaringen en een continue drive om beter te doen als individu en collectief leidt tot meer veerkracht en meer groei. Want groei zit in ons DNA, in elke vezel.

OUR OFFER

Een traineeship om van te smullen!

Gek op frieten, kroketten en puree? Je studeert binnenkort af? Of je hebt maximum 2 jaar werkervaring en je bent op zoek naar een nieuwe uitdaging vanaf september?

Start als Young Potatoholic bij Agristo en ervaar zelf hoe het is om bij een Belgisch topbedrijf te werken.

Wie ons Young Potatoholics traineeship volgt, zit 2 jaar lang goed in de puree. Letterlijk dan, want wij begeleiden je doorheen verschillende afdelingen en projecten in het bedrijf. Zo krijg je de kans om je skills verder te ontwikkelen en om impact te hebben op ons groeiverhaal. Na dit traject ken je perfect de 'ins en outs' van Agristo.

Het is de perfecte eerste stap naar een uitdagende job.

📍 Heverlee

🌐 <https://www.amexiogroup.com>

CONTACT

✉ HR_ambe@amexiogroup.com

☎ +32 16 44 25 10

ABOUT US

As experts in Enterprise Content Management (ECM), Customer Experience Management (CXM), and all things content-driven, we help organizations streamline their operations and deliver top-notch content science experiences. With a 100 motivated colleagues, we mix exciting projects, fresh ideas, and a supportive work environment. Walk into our office, and you'll feel it: no stiff suits or rigid rules here. Start your day when it suits you, enjoy a chat over coffee, and thrive in a space where collaboration (and the occasional laugh) comes naturally.

OUR OFFER

Joining AmeXio means being part of a skilled, motivated team where your contributions matter. We provide opportunities for professional growth, hands-on experience with impactful projects, and a work culture that values collaboration and innovation. Plus, you'll benefit from a supportive environment that encourages learning and development at every stage of your career.

CONTACT

✉ fien.geysen@amnovis.com
☎ +32 494 28 43 52

ABOUT US

Amnovis is an engineering and production company that uses innovative 3D printing technologies and materials to manufacture high end products such as medical devices, components of lithography machines and parts with unique thermal and electrical conductivity properties. The company was founded in 2020 by a team of no-nonsense entrepreneurs and 3D printing experts (all ex-LayerWise/3D Systems, including one of the founders and former CEO of LayerWise) with mainly two goals in mind:

1. Make superior 3D printed products and provide excellent service to our customers
2. Bring new innovations in 3D printing technologies, materials and applications to end-users in demanding industries

At Amnovis, we believe the full potential of 3D printing can be unlocked through thoughtful innovations, which we intend to enable for the utilization in regulated and high-tech industries. To achieve our purpose, we strive to be the catalyst of the innovation process, continuously looking for technical challenges and opportunities to redefine the state-of-the-art in 3D printing.

OUR OFFER

We are constantly looking for no-nonsense entrepreneurs and engineers to join our team and to achieve our purpose. Typical engineering roles at Amnovis:

- Application Engineer: translating customer requirements of their products into manufacturing specifications
- Process/Manufacturing Engineer: implementing and optimizing production processes
- R&D Engineer: performing groundbreaking research on new 3D printing technologies, materials and applications
- Quality Engineer: maintaining and improving our quality management systems
- Technical Sales Engineer: finding new industries/applications/customers and converting them into revenue streams

You will be able to work with cutting edge 3D printing technologies and make really cool parts. On top of that, working in a start-up company like ours, you will experience a highly flexible and dynamic work environment. Are you ready to join us?

ArcelorMittal

CONTACT

✉ simon.vandersluys.external@arcelormittal.com

☎ +32 9 347 43 37

ABOUT US

Steel is the foundation of a sustainable world. At ArcelorMittal, we develop innovative steels that are not only powerful and versatile, but also have a positive impact on people and planet. Our high-tech processes drastically reduce energy consumption and CO2 emissions, on top of which steel itself remains endlessly recyclable, with no loss of quality.

With applications in electric vehicles, solar panels and wind turbines, our steel plays a key role in the energy transition. But sustainable change requires more than just innovative materials; it also requires entrepreneurial people. That is why all our employees get the chance to develop their talents and build a career within a world leader in the steel industry.

At ArcelorMittal, we are making great strides towards a low-carbon future. Thanks to our Steelanol plant in Ghent, we have reached a pioneering milestone: the first large-scale shipment of ethanol produced from industrial emissions. This innovative process, developed in collaboration with LanzaTech, shows how we do not consider carbon as waste, but as a valuable raw material.

OUR OFFER

- Vast contract
- Aantrekkelijk loonpakket
- Resultaat gebonden premies
- Anciënniteitspremie (na 1 jaar in dienst)
- Groepsverzekering
- Doorgroeimogelijkheden (horizontaal en verticaal)

- Restaurant: broodjesbar en zelfbedieningsrestaurant.
- Maaltijdcheques van €8 bruto
- Geschenkencheques en ecocheques
- Auto -en fietslease
- 40+ verlofdagen

Atlas Copco Group

📍 Wilrijk

🌐 <https://www.atlascopcogroup.com/nl-be>

CONTACT

✉ rekrutering@atlascopco.com

☎ +32 3 401 98 28

ABOUT US

Atlas Copco Group enables technology that transforms the future. We innovate to develop products, services and solutions that are key to our customers' success. Our four business areas offer technologies for air and gas compression, vacuum and abatement, automated assembly and quality control, mobile energy management and power generation as well as portable and industrial flow technologies.

Atlas Copco Group has entities in inter alia Wilrijk, Boom, Hoeselt, Willebroek and Overijse. Atlas Copco Airpower Wilrijk is the worldwide headquarter of the compressor activities including R&D, production and logistics. It also holds the headquarter of Power Technique. The rental activities from Atlas Copco Rental are resided in Boom. Atlas Copco Group holds its worldwide distribution center in Hoeselt, Power Tools distribution, for inter alia industrial tools and vacuum solutions. Atlas Copco Belgium in Overijse is responsible for sales and service in Belgium. The site in Willebroek houses the customer center for vacuum solutions, our refurbishment center Originair and our Service Academy.

OUR OFFER

- We offer a culture of trust and accountability.
- By working together in a dynamic environment, we embrace different perspectives to make informed and transparent decisions. We believe that the one closest to the problem is the one closest to the solution.
- We offer careers unlocked by curiosity.
- We love initiative and believe in freedom with accountability. Lifelong learning and approachable leadership are part of our core. Our internal job market unlocks a world of opportunities for you to explore and to grow new skills.
- We offer innovation powered by people.
- We live by the belief that there is always a better way. Here, innovation is a core value.
- We develop new technologies and processes to create value for our customers and the communities we live in.
- We also believe in tomorrow's talent.
- Alongside permanent roles, we offer a wide range of opportunities for students across many fields. Whether as an intern, thesis student or Young Talent, you can gain hands-on experience, work on real projects and explore where your strengths and interests can take you.

CONTACT

✉ lieke.peys@axxes.com
☎ +32 484 43 90 91

ABOUT US

Axxes (BestPlaceToWork2025) draait om 'IT is about people'. Als gespecialiseerde IT-consultancy ondersteunen we tech scale ups & enterprise bedrijven bij digitale transformaties in software development, infrastructuur, data & AI, QA en projectmanagement. We verbinden kennis, mensen en technologie om echte impact te maken. Al 28 jaar is Axxes een vaste waarde met 300 consultants en 150 klanten in Vlaanderen en Brussel. Als deel van Tech Tribes behoren we tot een internationaal collectief van 1000+ digitale experts, actief in 5 landen. Onze kracht? Een mensgerichte cultuur waarin Groei, Kwaliteit en Feel Good centraal staan. We bouwen aan duurzame relaties en creëren een omgeving waar innovatie en talentontwikkeling hand in hand gaan. Samen realiseren we de projecten die het verschil maken.

OUR OFFER

Zet je carrière in versnelling met het Axxes Traineeship. Voor afgestudeerden (bachelor/master) die de kloof tussen theorie en praktijk willen dichtmaken in software, infrastructuur of software testing hebben we een intensief, praktijkgericht traject ontwikkeld, zo stomen onze eigen consultants je klaar voor echt projectwerk. Na afloop start je als consultant op een middellange opdracht bij toonaangevende klanten zoals DPG Media, Katoen Natie, VRT, Brussels Airport Company en Nowjobs. Je groeit met persoonlijke begeleiding van Team Captains, League Leads en buddies, plus een individueel leerpad met trainingen, conferenties en certificaten. Je houdt je kennis scherp en deelt ze via o.a. onze interne HAXX-conferentie of geeft na enkele jaren zelf les in één van onze Traineeships. Tot slot zijn we niet voor niets uitgeroepen tot Best Place To Work van 2025, je komt terecht in een jonge, dynamische cultuur met skitrips, maandelijkse drinks, summer events en sport. Hierbij houden we de focus op kwaliteit, groei én feel good. Klaar om te starten?

Baltimore Aircoil International

📍 Antwerpen (Zone A)
🌐 <https://www.bac.eu/en>

CONTACT

✉ egoossens@baltimoreaircoil.com

☎ +32 15 23 76 74

ABOUT US

Baltimore Aircoil International nv. is a global manufacturer of heat transfer solutions and services. We specialize in developing resource-saving evaporative cooling equipment that conserves water and energy.

Our EMEA headquarters is located in Heist-Op-den-Berg. The products of BAC Europe are distributed across Europe, the Middle-East and North-Africa. Working at BAC means working in a dynamic and international environment in which developing international contacts is seen as a big advantage by many of our employees. As EMEA headquarter, we play an important role in the global organization and have an impact on the global strategy. Due to our continuous growth we are always looking for motivated colleagues to strengthen our different departments. We appreciate people who like taking initiative and responsibility. BAC focuses on the personal development of people through various training approaches. Together we accomplish our BAC vision: “Reinventing Cooling to Sustain the World”.

OUR OFFER

“We reinvent cooling and lead the way in creating ever more advanced, reliable and energy-efficient cooling solutions. Every reason to join us begins with you.”

Working at BAC, means working in a dynamic, no-nonsense environment. with the possibilities to very easily build up an international network and collaborations. According to a recent survey with our employees also the open company culture, the support of your colleagues and our management and the possibilities to develop play an important role in the reason why people like working at BAC. Also the important of a proper work-life balance is something we pay a lot of attention to.

BAC is a company where YOU can GROW (create the career that you want) - YOU can MAKE AN IMPACT (enable to work with purpose) - YOU can FEEL VALUED (celebrate your accomplishments) and YOU can BELONG HERE (a true workplace community).

ABOUT US

Camco Technologies is a Belgian company with more than 200 employees worldwide, a world-leading provider of terminal automation solutions. We provide cutting-edge technologies like AI-powered cameras for container recognition, real-time location tracking of containers, and intuitive kiosks for quick driver and cargo registration. We also develop software applications that optimize every aspect of terminal management, from gate automation to yard operations. Serving over 300 clients worldwide, including terminals, ferry operators, railway companies, and crane manufacturers, we help customers run operations smoothly and efficiently while evolving into a software-focused company. Camco has offices in Belgium, the US, China, the Middle East, and Australia.

OUR OFFER

For September 2026, Camco is looking for recent graduates to join our teams as Software Engineers or Project Engineers. In the Product Team, you will develop and improve core software products, while the Project Team works directly with international clients to implement software solutions, offering exciting travel opportunities. Project Engineers manage and execute hardware installations on-site worldwide, also with chances to travel.

As a new graduate at Camco, you will benefit from mentorship and guidance to support your growth, as well as internal mobility and career development, allowing you to explore different roles horizontally and progress vertically. You'll also enjoy a friendly, collaborative culture with monthly afterwork events, with work locations in Leuven and Ghent.

Joining Camco means starting your career in cutting-edge terminal automation, gaining international experience, and building your skills in a dynamic, supportive environment.

ABOUT US

Pioneering new horizons. Convergence between physical and digital worlds has never been so real, disrupting the way clients manage their innovation, and playing a key role in their development. As the world leader in Engineering and R&D services, we help our clients accelerate their journey towards intelligent industry. We bring them global expertise and capabilities, cutting-edge technologies in digital and software, agile engineering platforms, and an industrialized delivery model.

OUR OFFER

As a graduate, you will be working with the world's leading brands to enhance and transform the way they do business.

With our portfolio of innovative market offers and technologies, we empower and encourage you to create your own career path. You get the freedom to build your personalized career journey with challenging global projects across the industries and businesses. You will get opportunities to contribute to society through social innovations, digital inclusion initiatives and environmental impact projects.

ABOUT US

We zijn meer dan alleen een ingenieurbureau, we zijn een cleantechbedrijf met een missie: een toekomst zonder uitstoot realiseren. Hiervoor ontwikkelen we baanbrekende oplossingen die fossiele brandstoffen elimineren uit de industriële productieprocessen van onze klanten en zo de weg vrijmaken voor een betere, duurzamere toekomst.

Een van onze parels is Ray & Jules, de eerste door zonne-energie aangedreven koffiebranderij ter wereld. Bovendien ontwerpen we niet alleen cleantech, we bouwen het ook in onze ultramoderne constructieafdeling in Geel.

OUR OFFER

Werk mee aan innovatieve projecten met een positieve maatschappelijke impact zowel nationaal als internationaal.

Van duurzame oplossingen voor internationale bouwfabrikanten tot koffiebranden op zonne-energie, elk project van CEE draagt bij aan een betere planeet.

We bieden je mogelijkheden om jezelf maximaal te ontwikkelen en te groeien.

Naast een competitief verloningspakket is er ook ruimte voor fun tijdens team- en familie-activiteiten.

ABOUT US

Cegeka is a leading and ambitious ICT partner. Guided by the motto 'In Close Cooperation', we are committed to delivering exceptional customer service, supporting over 2,500 clients throughout every step of their digital transformation journey.

Our comprehensive service portfolio includes Application Services, Business Solutions, Quality Engineering, Data & AI, Digital Workplaces, Cybersecurity & Regulatory/Compliance, and Hybrid Cloud. These services are seamlessly integrated to address a wide range of customer needs.

Within the Cegeka Group, several subsidiaries operate with specialized focuses. Among them is nexuzhealth, which delivers tailored solutions for the healthcare sector. Additionally, Smartschool, Belgium's leading digital school platform, facilitates effective collaboration between schools, teachers, students, and parents.

Cegeka has a global presence, with offices in the Benelux region, Germany, Austria, Romania, Moldova, Italy, Sweden, Greece, Denmark, France, the United Kingdom, the United States, Colombia, and India. In 2023, the company, with over 10,000 employees

OUR OFFER

At Cegeka, you are not simply thrown to the lions: a team of coaches ensures excellent guidance. Together with them, you will have the opportunity to design your career path. Based on your skills and preferences, we provide the acceleration in your career.

Avoid boring car rides and endless traffic jams. Your workplace is wherever your computer is. You will work at our clients' locations, partially remote, or at one of our offices in Flanders: Hasselt, Leuven, Ghent, Antwerp and Diegem.

Cegeka is still a family business to this day. A family business that values collaboration, entrepreneurship, and development as its foundation. Development is not only focused on technology but also on an individual level. We believe that we can only grow if our employees do too.

We offer an attractive salary, a premium company car, health and group insurance, meal vouchers, eco vouchers, a mobile phone subscription, and a laptop. Additionally, we provide flexible working hours, ensuring a pleasant work-life balance.

Comate

📍 Leuven

🔗 <https://www.comate.be/>

CONTACT

✉ jekatarina.jaeken@comate.be

☎ +32 497 83 59 32

ABOUT US

Comate is a company that develops high-tech hardware devices for other companies from our offices in Leuven and Ghent, or directly on-site at the client. We are the driving force behind successful companies such as MiDiagnostics and MedEnvision, as well as groundbreaking innovations like construction site batteries that replace diesel generators, lasers for removing radioactive waste in Chernobyl, implants that predict epileptic seizures, and wearables that could soon help eliminate sleep apnea.

But we are more than that. Comate is a catalyst for innovation, a place where groundbreaking ideas come to life. Our team of engineers and designers collaborates with visionary entrepreneurs to develop new products that make a positive impact on the world. We also take initiatives to build and strengthen the hardware ecosystem.

In 2019, we were named SME of the Year, and for four consecutive years, we ranked among Deloitte's Fast 50.

OUR OFFER

At Comate, we help turn breakthrough ideas into real-world devices, and that starts with the right people. We offer more than a job. The coMATE experience is where your expertise drives meaningful innovation, in a team that values ownership, collaboration and real-world impact.

We create cutting-edge hardware products for pioneering companies across industries. From the most secure cryptowallet and an active implantable medical device to a device that makes hip surgery more efficient or a battery unit for construction sites. A few milestones we've celebrated with the team:

- * 50+ awards received as a recognition of our expertise
- * +1,500 m2 workshop area where our engineers and designers prototype and produce
- * ISO 13485 certified, ensuring top-tier quality standards
- * Acquisition of Zenso Electronics in 2022

ABOUT US

Danone Rotselaar – Waar innovatie en duurzaamheid samenkomen

Welkom in Rotselaar, thuisbasis van één van Danone's meest vooruitstrevende productiesites in Europa. We produceren dagelijks miljoenen potjes yoghurt en flesjes Actimel, met een team van zo'n 480 toegewijde medewerkers – onze "food heroes".

Wat maakt Danone Rotselaar zo bijzonder? Onze site werd bekroond met het prestigieuze label Factory of the Future. En dat is geen toeval: hier wordt volop ingezet op duurzaamheid, technologische innovatie en een mensgerichte werkomgeving.

Bij Danone Rotselaar geloven we in lokale verankering, stimuleren we interne mobiliteit en ontwikkeling!

Kortom, Danone Rotselaar is een plek waar gezonde voeding, duurzame productie en menselijk kapitaal hand in hand gaan.

OUR OFFER

We investeren in talent! Via stages, opleidingen en samenwerkingen met hogescholen en universiteiten krijg je de kans om mee te werken aan echte projecten – van productieoptimalisatie tot duurzaamheidstrajecten.

Ben je net afgestudeerd en klaar om je eerste stappen te zetten in de professionele wereld? Bij Danone werk je aan een persoonlijk ontwikkelplan, krijg je coaching van ervaren collega's en bouw je aan je professionele vaardigheden in een dynamische werkomgeving. Bij Danone Rotselaar geloven we in de kracht van onze mensen.

Onze "food heroes" krijgen doorgroeimogelijkheden, op maat gemaakte opleidingsprogramma's en de kans om mee te bouwen aan een betere toekomst – voor mens én planeet.

☎ +32 2 442 81 10

ABOUT US

Wij zijn Defensie. En wij hebben maar één missie. Eén enkele opdracht, maar wel een van de meest complexe die er bestaan. Jouw toekomst beschermen.

Om dat te doen gaan we tot het uiterste. En dan nog een stapje verder. Want elke militair staat ten dienste van de samenleving, 24 uur op 24 en 7 dagen op 7. Zowel in het binnen- als het buitenland. En zo nodig op gevaar voor eigen leven.

Want wat er ook gebeurt in de wereld, jij moet met een gerust hart je leven kunnen leiden. En je geen zorgen maken over nu, of over later.

Jouw toekomst. Onze missie.

OUR OFFER

Naast een aantrekkelijk salaris en de aspecten die werken bij Defensie uniek maken zoals teamwork, afwisselend en uitdagend werk, unieke ervaringen, gelijke kansen en doorgroeimogelijkheden, bieden we jou:

- Een uitgebreide opleiding op maat zodat jij vol vertrouwen kan starten in je nieuwe job
- Een boeiende militaire loopbaan
- Bijkomende vergoedingen en toelagen voor prestaties
- Vakantiegeld en eindejaarspremie
- Maaltijdcheques
- Kledijvergoeding
- 48 vrije dagen
- Extra vakantie tussen Kerstmis en Nieuwjaar
- Glijdende werkuren (naargelang de uitgeoefende functie)
- Gratis zorgkosten bij erkende zorgverstrekkers
- Gratis hospitalisatieverzekering voor jezelf en een aanzienlijke korting voor je gezinsleden
- Gratis woon-werkverkeer met het openbaar vervoer of mogelijkheid voor een fietsvergoeding
- Uitgebreid opleidingsaanbod (te volgen tijdens de werkuren)
- Bedrijfsrestaurant tegen democratische prijzen
- Gebruik van sportinfrastructuur tijdens de werkuren
- Allerhande kortingen (via Benefits@work)

Dekimo Leuven NV

📍 Leuven

🔗 <https://www.dekimo.com/dekimo-leuven/>

CONTACT

✉ hrm@dekimo.com

☎ +32 16 44 14 14

ABOUT US

Dekimo develops custom firmware, embedded software and electronics for the industry. We are one of the largest design houses of our kind in Flanders.

The group consists of design houses for electronic engineering and software applications, a consultancy service (Dekimo Experts), a layout service for printed circuit board design, a certified EMC lab, a prototype service and a highly automated SMD assembly plant for series of 100 to 100,000 PCBAs.

The Leuven branch houses some 30 engineers: hardware & software developers and layout engineers. The entire Dekimo group employs more than 400 people, most of whom are engineers.

We do development, lay-out and production work for Belgium and the Netherlands, and to a lesser extent France, Germany and GH Luxembourg.

OUR OFFER

- * You end up in a young team, with a number of seniors to give you sufficient back support so you can learn a lot in a short time.
- * Financially strong, stable group with an important size but non-nonsense approach, family managed company.
- * One Stop Shop formula from the Dekimo group lets you come into contact with all facets of electronics development and production.

Design Engineering

📍 Antwerpen

🌐 <https://www.dosign.be/>

CONTACT

✉ lennert.taels@dosign.com

☎ +32 470 61 64 17

ABOUT US

Dosign is een projectsourcing-, detachering- en opleidingsbureau gespecialiseerd in hoogopgeleide technische bediendeprofielen actief in diverse sectoren zoals Farmacie, Energie, Chemie, Petrochemie, Voeding, Olie & Gas, Infra, Installatietechniek, etcetera.

Onze activiteiten richten zich tot R&D, Engineering, Project- en Construction Management. Onze disciplines zijn:

- Industriële automatisering
- Machinebouw
- Elektrotechniek & Instrumentatie
- Process
- Piping & Mechanical
- HVAC
- Civiel & Bouwkunde
- Staalbouw

Je kan bij Dosign aan de slag als consultant waarbij je op verschillende projecten kan werken of je kan na een bepaalde periode (1 of 2 jaar) instappen bij het bedrijf waar je die periode hebt gewerkt.

OUR OFFER

Voor ons zijn er 3 zaken belangrijk: één-op-één aanpak, begeleiden en opleiden.

Één-op-één aanpak: Samen met jou kijken wat je interessant en belangrijk vindt in een job. Op basis van die voorwaarden en interesses zoeken we samen naar een functie die perfect hierbinnen past.

Begeleiden: We helpen en begeleiden jou van A tot Z binnen de arbeidsmarkt. Tips&Tricks bij het solliciteren? Wat is jeugdverlof? Hoe kan je dit aanvragen? Wat met vakantie en opstart? Op alle vragen hebben we een antwoord. Tevens geven we jou tips zodat je later een mooie toekomst kan uitbouwen

Opleiden: De wereld van techniek staat niet stil, daarom is blijvend leren een noodzaak. Bij Dosign kan je altijd terugvallen op, op maat gemaakte opleidingstrajecten. Wil je later projectmanager worden? Onze Dosign Academy leert jou alle nodige softskills. Zin om een expert te worden? We hebben specifieke technische traineeships.

Interesse? Contacteer ons, voor jouw op maat gemaakte opleidingstraject!

ABOUT US

Voor machine-en apparatenbouwers ontwikkelt E.D.&A. hardware en embedded software die voldoen aan de hoogste kwaliteitsstandaarden. Ons multidisciplinair team van specialisten gebruikt hierbij verschillende simulatiemogelijkheden en geavanceerde testen. Zo helpen we onze klanten om hun producten beter, kostenefficiënt en op tijd op de markt te brengen

Naast de ontwikkeling van custom-made elektronica voor consumenten- en industriële toepassingen, staat E.D.&A. ook in voor de productie. Daarvoor hebben we onze eigen hypermoderne geautomatiseerde assemblagelijnen. Dankzij een doorgedreven automatisering konden we een doorbraak op vlak van kwaliteit, flexibiliteit, efficiëntie en doorlooptijden realiseren, waardoor we bekroond werden als Factory of The Future.

OUR OFFER

Werken bij E.D.&A. betekent afwisseling en uitdagingen combineren met een open werksfeer. Een plaats waar de deuren ook letterlijk altijd open staan. Onze medewerkers zijn onze kracht. Naast onze creatieve hardware- en softwaremensen, hebben we ook heel wat hands-on productiemensen en commerciële, administratieve en IT talenten in huis. De beste resultaten worden behaald door teams die optimaal samenwerken en kennis delen. Daar geloven wij rotsvast in.

CONTACT

✉ m.manshoven@easi.net

☎ +32 497 24 39 45

ABOUT US

We are Easi, a Belgian IT company that has been conquering the market since 1999 across multiple areas of the IT sector. We are a trusted name in software, application development, cyber security, cloud, IT infrastructure, Business intelligence & data analytics, Microsoft solutions, and connectivity.

Our mission? To help every person and every company reach their full potential. With offices in Leuven, Ghent, Nivelles, Liège, Genk, Ronse and Luxembourg we provide flexible solutions for organizations looking for a partner who stays close to them. In 2025, we proudly earned the Best Place to Work title for the eleventh year in a row. Work hard, play harder: that's what defines us.

At Easi, you'll find a wide range of career opportunities:

Technical roles: Software Developer, Data Engineer, Software Consultant, Security Engineer, Network Engineer, System Engineer, Technical Engineer, ...

Business roles: Consultant, Sales Development Representative, Account Manager, ...

OUR OFFER

We do not promote outsourcing at Easi. Our consultants and engineers primarily operate from one of our offices, where they are surrounded by coaches, mentors, and colleagues. This collaborative environment ensures that you can work closely with your teammates at Easi.

Additionally, we adhere to a multi-project, multi-client approach: instead of focusing on a single project for one client, you will be responsible for several projects across different clients. This approach makes your job incredibly varied and exciting, allowing you to rapidly develop a diverse set of both soft and hard skills through various client projects.

At Easi, we strongly believe in workplace well-being and job satisfaction. We ensure our employees' well-being by investing in modern, wellness-oriented offices, providing fresh fruit at work, having a gaming room in each office, offering regular free breakfasts, and organizing sports activities and other enjoyable events.

CONTACT

✉ kristof.heyselberghs@evonik.com

☎ +32 479 58 73 17

ABOUT US

Welkom bij Evonik Antwerpen, een van de grootste multi-user-vestigingen van Evonik Industries. Met negen productie-eenheden behoren wij tot het segment Advanced Technologies. We zijn actief in de business lines Animal Nutrition, Crosslinkers, Smart Effects en Active Oxygens.

Als de grootste buitenlandse vestiging van Evonik Industries, gelegen op het 109 hectare grote Chemiepark Lillo, produceren we een breed scala aan producten voor diverse toepassingen. Hier staat tevens de wereldwijd grootste eenheid voor de productie van methionine, een essentieel aminozuur.

Onze gespecialiseerde productie-eenheden vervaardigen onder andere grondstoffen voor diervoeding en siliconen die onmisbaar zijn in de elektro- en communicatie-industrie. Daarnaast maken we bindmiddelen voor drukinkten, verven en lakken, en produceren we belangrijke componenten voor autobanden en bleekmiddelen. Evonik Antwerpen onderscheidt zich door haar uitstekende infrastructuur en strategische ligging. De nabijheid van de haven biedt ons een aanzienlijk logistiek voordeel, aangevuld met goede weg- en spoorverbindingen.

OUR OFFER

Naast een aantrekkelijk salaris en bijkomende voordelen (zoals gratis busvervoer vanuit Antwerpen en omgeving, maaltijdcheques, een aantrekkelijk verzekeringspakket, arbeidsduurvermindering, ...) bieden wij je de kans om je verder te ontplooiën in een hoogtechnologische internationale onderneming.

ABOUT US

At EY, we're building a better working world. One that creates long-term value for our clients, our people, and society. As a global leader in assurance, consulting, strategy and transactions, and tax, we help organizations solve complex challenges, drive sustainable growth, and embrace innovation.

With more than 400,000 people across 150+ countries, EY combines deep industry knowledge with advanced technology to help businesses transform and thrive in an ever-changing world. Whether it's improving performance, managing risk, or making data-driven decisions, our teams work collaboratively to make a real impact.

At EY, you'll join a culture that values curiosity, integrity, and continuous learning — empowering you to build the career you want, while contributing to something bigger.

OUR OFFER

At EY, your technical mindset and problem-solving skills as an Industrial Engineer will open doors to a wide range of opportunities. You'll work on multidisciplinary teams that combine business, technology, and analytics to help leading organizations become more efficient, resilient, and future-ready.

We offer:

- Challenging and diverse projects across industries such as energy, manufacturing, healthcare, finance, and technology.
- Continuous learning and professional development, including access to EY's global learning platforms and certifications.
- A supportive and inclusive culture, where teamwork, innovation, and well-being are at the heart of everything we do.
- Career growth opportunities in consulting, operations, data analytics, risk management, and more.

At EY, you'll turn your analytical thinking into real-world impact — helping clients reimagine what's possible.

Flow Traders

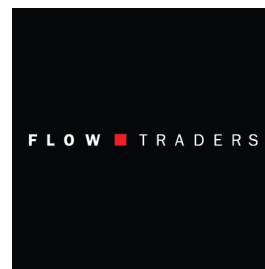

📍 Amsterdam

🌐 <https://www.flowtraders.com>

CONTACT

✉ bnathansontanner@flowtraders.com

☎ +32 20 799 67 99

ABOUT US

Flow Traders is a leading global financial technology-enabled liquidity provider in financial products, historically specialized in Exchange Traded Products (ETPs). We now have commenced the diversification of our market making activities into other asset classes, such as Foreign Exchange (FX), commodities, cryptocurrencies and fixed income. Flow Traders ensures the provision of liquidity to support the uninterrupted functioning of financial markets. This allows investors to continue to buy or sell ETPs or other financial instruments under all market circumstances. Our work continues to make investing cheaper and more accessible for investors across the globe. We continuously grow our organization, ensuring that our trading desks in Europe, the Americas and Asia can provide liquidity across all major exchanges, globally, 24 hours a day. Founded in 2004, we continue to cultivate the entrepreneurial, innovative and team-oriented culture that has been with us since the beginning.

OUR OFFER

Flow Traders is looking for Trading Interns, Graduate Traders and Graduate Digital Assets Traders to join our growing Trading team in Amsterdam. The ideal candidate is competitive, driven and passionate about the financial markets or digital assets markets. This is a unique opportunity to join a leading proprietary trading firm with an entrepreneurial and innovative culture at the heart of its business. We value quick-witted, creative minds and challenge them to make full use of their capacities. If you aim high, the sky is the limit!

CONTACT

✉ Els.gilbert@fluvius.be
☎ +32 477 95 37 64

ABOUT US

Niemand kan ernaast kijken: Vlaanderen zit volop in een energietransitie. Zonnepanelen en windmolenparken, elektrische voertuigen en slimme laadpalen, thuisbatterijen en energiedelen... Het vraagt om een elektriciteitsnet dat meer aankan.

Fluvius maakt de energietransitie mee mogelijk. Wij zijn hét Vlaamse multi-utility bedrijf dat bouwt aan de netwerken voor morgen: wij beheren 6,6 miljoen aansluitingen voor elektriciteit, gas, warmte en riolering. In alle 300 Vlaamse gemeenten. Tot bij iedereen.

Jouw competenties en talent kunnen we goed gebruiken om mee te werken aan de energietransitie.

Kom jij meebouwen aan de netwerken voor morgen in een Great Place To Work?

OUR OFFER

Dit krijg je van ons:

1. Een verloningspakket dat nergens beter is. Je krijgt maaltijdcheques, premies, verzekeringen voor het hele gezin en korting op je energiefactuur. Daarbovenop komen nog heel wat extra vakantiedagen en een flexibele arbeidsregeling.
2. Een werkweek zonder files. We hebben vestigingen in heel Vlaanderen. Daardoor kun je makkelijk aan de slag in je eigen streek.
3. Topcollega's. Bij Fluvius zorgen we voor elkaar. Vanaf dag één. Verwacht een warme ontvangst en leidinggevendenden die naar je luisteren. We zorgen ook voor anderen: met 'Fluvius gaat hart' zamelen we jaarlijks geld in voor het goede doel.
4. Doorgroeikansen. Bij Fluvius bouw je niet alleen aan het netwerk van de toekomst, maar ook volop aan jezelf. Met opleidingen op maat en intensieve begeleiding. Je groeit door volgens je eigen interesses. Vacatures maken we trouwens altijd eerst intern bekend, dus je krijgt de eerste keuze.

GigaCom Benelux

📍 Averbode

CONTACT

✉ dieter@gigacom.be

☎ +32 475 33 96 71

ABOUT US

Gigacom Benelux BV is shaping the future of fiber networks through automation. We develop innovative, high-end solutions for the telecom and datacom industry that reduce operational complexity, lower costs, and improve the reliability of next-generation networks.

Our flagship solution, the Semi-Automated Fiber Management and Test System, combines robotics, advanced test and measurement technology, and intelligent software. It enables fully automated configuration and testing of fiber-optic networks, eliminating manual interventions and unnecessary site visits.

Headquartered in Belgium, Gigacom Benelux operates in close collaboration with local partners and serves customers in more than 20 countries worldwide. Joining our team means working on cutting-edge technology with real-world impact, in an international and innovation-driven environment.

OUR OFFER

We are currently offering opportunities for the following profiles:

- Software Developers
- Quality Engineer
- Manufacturing Engineer
- Sales Support Engineer / Project Manager

Group IPS

📍 Nivelles

🌐 <https://www.group-ips.com/>

CONTACT

✉ juanita.sanchez@group-ips.com

☎ +32 470 74 17 61

ABOUT US

Group IPS is an international company with inhouse Engineering and specialized services across Project Management for industries, Automation and Architecture. EPCM expertise, more than ten countries around the globe but an entrepreneurial and teambuilding mindset.

We provide not only project management expertise but also six cross-industry value-added services, Consulting, Technological Innovation, Digital Supply Chain & Operations, Architecture, Safety, and Engineering. With a cross-industry approach and a mastery of cutting-edge technologies, we're able to help our customers move confidently into the future with not only new factories, but new processes and even products as well.

Partnering with our clients for the entire duration of a project, from the first spark of an idea, to project preparation, to construction and final commissioning and finally facility handover. We are fully committed to the United Nations Sustainable Development Goals, which guide us in problem-solving and inspire us to pursue complex projects that make a tangible impact on human lives.

OUR OFFER

Now, we are looking for a Project Engineer to join our office in Belgium .

As an employee of IPS will actively participate in a wide range of projects in an Industrial environment. The management of each project can include multiple phases and/or specialization:

- Strategic Consulting: project master planning, conceptual engineering.
- Project feasibility: process description, plant layout, overall time schedule, procurement strategy, financial plan.
- Project preparation phase: investment analysis, basic engineering, permitting, financing and procurement.
- Project realization phase: project management; detailed engineering, construction management, commissioning management, operational management.

Guardsquare

CONTACT✉ jobs@imec.be

☎ +32 16 28 12 11

**ABOUT US**

Shaping the future of technology Imec is more than just another research and development (R&D) hub. The combination of top talent, unique infrastructure, and our global partner network makes us a world leader in nanoelectronics and digital technologies.

With a 40-year track record of driving the microchip scaling roadmap, we have remained at the forefront of microchip innovation, making smaller, faster, more affordable, and more sustainable chips. Typically, a smartphone includes microchip technology invented by imec.

Headquartered in Flanders (Belgium), imec has a global team of over 6,600 talented minds with more than 100 nationalities represented and a presence on three continents.

Our collaborative approach bridges the gap between academia and industry, facilitating the rapid transfer of knowledge and technology from the research lab to the market and allowing companies to develop disruptive industry-relevant solutions faster than ever before.

OUR OFFER

We offer you the opportunity to join one of the world's premier research centers in nanotechnology at its headquarters in Leuven, Belgium.

With your talent, passion and expertise, you'll become part of a team that makes the impossible possible. Together, we shape the technology that will define the society of tomorrow.

We are committed to being an inclusive employer (<http://www.imec-int.com/en/careers#diversity>) and proud of our open, multicultural, and informal working environment with ample possibilities to take initiative and show responsibility. In everything we do, your future colleagues are guided by the imec values of passion, excellence, connectedness and integrity. We commit to supporting and guiding you in this process; not only with words but also with tangible actions. We actively invest in your development to further your technical and personal growth.

We are aware that your valuable contribution makes imec a top player in its field. Your energy and commitment are therefore appreciated by means of a market appropriate salary with many fringe benefits.

ABOUT US

Een wereld van mogelijkheden bij Infrabel.

Elke dag bouwen 10.000 collega's mee aan het Belgisch spoorwegennet dat beantwoordt aan de uitdagingen van de toekomst.

Ben jij op zoek naar een unieke job binnen een innovatieve onderneming met geweldige carrièremogelijkheden?

We are Infrabel!

OUR OFFER

Infrabel biedt een warme, collegiale werkomgeving waar passie voor het spoor centraal staat. De organisatie bouwt op haar 5shift Culture, met waarden zoals zorgzaamheid, positiviteit, moed en betrouwbaarheid.

Het welzijn en de groei van medewerkers staan voorop, wat bijdraagt aan duurzame prestaties. Als erkende Top Employer investeert Infrabel sterk in veiligheid, ergonomie, gezondheid en een goede werk-privébalans.

Diversiteit en inclusiviteit zijn vanzelfsprekend: iedereen wordt aangemoedigd om zichzelf te zijn. Werken bij Infrabel betekent meewerken aan een veilige, efficiënte en duurzame mobiliteit in België, met grote maatschappelijke impact.

Via de Infrabel Academy krijgen medewerkers uitgebreide kansen om zich verder te ontwikkelen en te specialiseren.

Ingenium NV

📍 Sint-Andries
🌐 <https://www.ingenium.be/>

INGENIUM GROUP

CONTACT

✉ jobs@ingenium.be

☎ +32 50 40 45 36

ABOUT US

Als ingenieurbureau adviseren, ontwerpen en optimaliseren we de technische installaties en bouwfysische kwaliteiten van ambitieuze bouw- en renovatieprojecten. Dankzij ons brede aanbod zijn we betrokken in elke fase van de levenscyclus van een gebouw. We streven altijd naar energiezuinige, duurzame en comfortabele gebouwen — met nulenergiegebouwen als ultiem doel.

We werken in heel wat sectoren:

Cultuur en onroerend erfgoed - Logistiek - Industrie - Biotech, lab & cleanroom - Overheid
- Datacenters - Real estate - Gezondheidszorg - Hogescholen en universiteiten - Kantoren

Wist je dat we deel uitmaken van het Europese First Q-netwerk? Dat biedt onze medewerkers de kans om enkele maanden in het buitenland te werken, nieuwe projecten te ontdekken en een andere werkcultuur te ervaren.

Kortom: bij ons vind je de perfecte mix van professionele uitdaging, persoonlijke groei en collegiale sfeer.

OUR OFFER

Benieuwd hoe het is om je carrière te starten bij een werkgever die echt in jou investeert? Bij ons krijg je de kans om te groeien, te leren en tegelijk plezier te hebben in je job.

Wij zijn een team van 130 collega's, verspreid over vijf kantoren in Vlaanderen en Brussel. Een goed georganiseerde maar warme groep, met een sterke teamgeest. Nieuwe collega's staan er nooit alleen voor: je krijgt begeleiding van een coach, een peter en het hele team. Iedereen telt hier — we werken samen, delen kennis en zorgen ervoor dat iedereen zich thuis voelt.

We zijn een innovatief ingenieurbureau in volle groei, en die dynamiek voel je elke dag. We bouwden onze eigen Augmented Reality-app en gebruiken Artificiële Intelligentie om onze ontwerpen slimmer en duurzamer te maken. Ideeën komen bij ons niet enkel van bovenaf — iedereen krijgt de kans om zijn stem te laten horen.

Naast uitdagende projecten vinden we een gezonde work-life balans belangrijk. En omdat werk ook leuk mag zijn, organiseert ons feestcomité gemiddeld om de 2 maand activiteiten die de band tussen collega's versterken.

International Car Operators

📍 Zeebrugge

🌐 <https://www.icoterminals.com/nl>

CONTACT

✉ Linda.VanHuffel@icoterminals.com

☎ +32 50 72 54 92

ABOUT US

ICO is a global leader in the handling and storage of roll-on/roll-off cargo. In practice, this means that everything on wheels that is driven onto or off a vessel passes through ICO. But ICO's services go far beyond loading and unloading cars and heavy equipment. The company also provides vehicle processing, vehicle conversions, and ship agency services. On top of that, ICO fully takes care of all customs formalities, making it a true one“stop“shop for many customers when it comes to logistics and vehicle-related needs.

With terminals in Zeebrugge and Antwerp, ICO handles more than 2 million vehicles each year. Thanks to its strategic location at the heart of Europe's automotive industry, the world's largest car brands rely on ICO as a crucial link in their logistics chain. ICO distinguishes itself by completely unburdening car dealers and manufacturers, allowing them to focus on what truly matters to them.

OUR OFFER

Our activities as the world's largest car handler:

- Vessel operations

Handling of all roll-on/roll-off cargo during loading and unloading.

- Vehicle storage

Secure and efficient storage solutions for large volumes of vehicles.

- Vehicle processing and conversion

Pre“delivery inspections, technical processing, customisation, and full vehicle conversions.

- Customs formalities

Complete management of all customs procedures, ensuring smooth and compliant import and export flows.

- Logistics for complex projects

End“to“end logistics support for oversized and specialised cargo, including agricultural machinery, wind turbines, buses, trams, and more.

We place a strong emphasis on personal and professional development, providing a variety of training programs and experience-sharing meetings to enhance both soft skills and technical expertise.

Our corporate culture fosters personal growth, mutual trust, teamwork, and lifelong learning. We promote an inclusive workspace that values diversity, mutual respect, and tolerance.

Master of Cybersecurity

📍 Heverlee

🔗 <https://www.kuleuven.be/programmes/master-cybersecurity>

CONTACT

✉ macybsec@cs.kuleuven.be

☎ +32 16 32 06 72

ABOUT US

The Advanced Master of Cybersecurity is 1-year (60 ECTS) master-after-master programme at KU Leuven, a joint effort of 2 renowned research units COSIC and DistriNet.

It covers five areas: cryptography, privacy, hardware security, secure software, systems security.

The first semester introduces these themes, after which you select four of them to gain in-depth knowledge. In the second semester, you specialize in two themes, and explore the broader societal context of cybersecurity. Legal aspects are addressed in a compulsory course, bridging law and technology, while elective courses delve into cybersecurity management, governance, risk and business operations. The final part of the second semester focuses on research seminars and the completion of a master's thesis.

OUR OFFER

Our programme goals:

- Train students in the design and development of secure digital systems and services.
- Focus on technical aspects underpinning cybersecurity: cryptographic techniques, software and hardware security, systems security and privacy.
- Provide insight into the broader context of cybersecurity in society, including the legal, business and operational framework of cybersecurity.

ABOUT US

Newpoint Professionals is een ingenieurbureau, gespecialiseerd in projectmanagement voor industriële en Engineering projecten. Wij halen het beste uit Projectmanagers en Engineers met onze opleidingen en coaching on the job.

Ons doel? Professionals omvormen tot echte Nextlevel Engineers. Experten in hun vak die zowel hun eigen carrière alsook organisaties naar een volgend niveau tillen.

Onze accountmanagers hebben tal van ervaring in de sector en kunnen op elke vraag van jouw organisatie een antwoord bieden. Zij kennen de profielen van Engineers en Projectmanagers en gaan steeds voor de beste match met jouw bedrijf.

OUR OFFER

Newpoint Professionals gelooft in continue ontwikkeling. Daarom beschikken al onze Engineers en Projectmanagers over een uitgebreid opleidingsbudget om hun verschillende competenties aan te scherpen.

Onze Engineers worden vanaf de start van een opdracht van nabij opgevolgd door onze accountmanagers. Wij willen groeikansen bieden aan de Engineer, zodat deze in zijn/haar competenties ten volle kan ontwikkelen.

Wij voorzien coaching voor onze Nextlevel Engineers om ze individueel te ondersteunen bij het omgaan met hun specifieke, vaak niet technische, issues.

☎ +32 480 69 53 34

ABOUT US

At Nexios IT, we know that in business, change is inevitable, and companies need to stay prepared. With 20 years of ICT experience, we provide practical, tailored solutions in software development, cloud technologies, and IT management, focusing on secure, scalable, and future-ready systems.

Our team has expertise in Java, .NET, JavaScript, and AI-powered solutions, helping organizations of all sizes optimize IT operations, accelerate growth, and turn challenges into opportunities. Beyond technology, we believe in long-term partnerships, guiding clients through every stage of their digital journey, from strategy and implementation to ongoing support, while delivering smart, practical solutions for modern businesses.

OUR OFFER

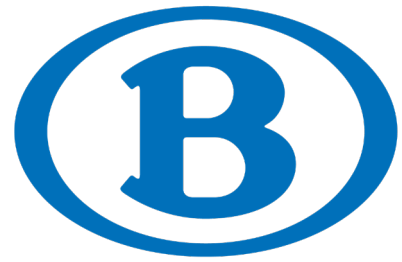

At Nexios IT, you'll join exciting projects where you can learn, grow, and make an impact. Your role will involve joining existing project teams, supporting or leading them, and helping turn projects into technical successes by delivering the desired outcome for the client. Depending on your career path, interests, and expertise, you can participate in a project from start to finish, from blueprint and audit to implementation.

We offer continuous training, expert guidance, and dedicated coaching to sharpen your skills and support your career. Enjoy flexible, hybrid working, a healthy work-life balance, and a personalized salary package. Plus, contribute to a sustainable future with our fully electric company fleet.

NMBS

ABOUT US

NMBS speelt in België een onmisbare rol op het vlak van duurzame mobiliteit en stelt haar klanten daarbij centraal. De opdracht van NMBS bestaat erin haar reizigers veilig, stipt en comfortabel per trein op bestemming te brengen. Daarnaast staat ze ook in voor het onderhoud en de vernieuwing van haar treinen en stelt ze alles in het werk om een klantvriendelijk onthaal aan te bieden in functioneel ingerichte stations.

De uitdaging van NMBS bestaat erin om op korte termijn tot een modern en performant bedrijf te komen dat 'goesting geeft' aan haar klanten en medewerkers binnen een ondernemingscultuur die gebaseerd is op professionalisme, respect, ondernemerschap en samenwerking.

Ons succes zal in grote mate afhangen van onze medewerkers: de juiste mensen op de juiste plaats, gemotiveerd om mee het succesverhaal van NMBS te schrijven.

ABOUT US

Odoo is a fast-growing Belgian software company that helps businesses of all sizes manage everything in one place.

From sales, marketing, and CRM to accounting, you name it, Odoo does it.

Our all-in-one platform is a smart solution that opens the door to an affordable ERP system for many companies. Millions of people worldwide rely on Odoo every day because it's user-friendly, fully integrated, and simply convenient. No more juggling separate tools, everything works seamlessly together.

Odoo is where innovation, teamwork, and fun come together.

Will you join us?

OUR OFFER

Working at Odoo means being part of a fast-growing, international tech company where innovation, collaboration, and fun are at the heart of everything we do. You'll enjoy a high level of autonomy, plenty of learning opportunities, and the chance to make a direct impact.

With an open company culture, diverse teams, and room to grow, at Odoo you don't just build software, you build your career.

📍 Wommelgem
🌐 <https://www.omp.com/>

CONTACT

✉ mvanschoubroeck@omp.com
☎ +32 475 37 49 34

ABOUT US

We are OMP, a leading game changer in supply chain planning solutions. The world's largest companies, including Johnson & Johnson, Procter & Gamble, and Nestlé, count on our smart software and services to optimize their supply chains. Our commitment to people and innovation is our key driver of success. That's why we continuously invest in growing talent and industry expertise. Are you ready to join over 1,200 passionate colleagues of over 65 nationalities?

OUR OFFER

- Consultants: You equip customers with supply chain planning solutions. You analyze planning challenges, assist in the solution design, implement and validate the solution, and ensure a smooth go-live. Customers rely on your support throughout the entire project life cycle.
- Software Engineer: You contribute to the creation of innovative and leading software solutions. Guided by our top-notch software architects and software experts, you participate in all the steps of the software development life cycle from analysis, architectural design, and programming to maintenance.

CONTACT

✉ pieter.coppens@otmatic.com
☎ +32 491 72 71 84

ABOUT US

Founded on August 1st, 2025, OTmatic is a fresh and ambitious OT start-up with a clear mission. We envision a future where Industry 4.0 is accessible to everyone, by connecting OT and IT through our innovative low-code automation platform. By reducing engineering costs and optimizing operations, we allow companies to secure a competitive advantage while simultaneously lowering their environmental impact.

We are engineers at heart, combining our software platform with hands-on OT consultancy and integration services. While our roots and primary network lie within environmental services, we apply our expertise across various industrial sectors. We are a team of builders looking for fellow adventurers to help us lay the foundation of this new company. If you want to work at the intersection of software and physical installations, this is where it happens.

OUR OFFER

We don't offer a comfortable, repetitive desk job: we offer an expedition. At OTmatic, the learning curve is steep, but you won't climb it alone. You will become part of a small team, working shoulder-to-shoulder with experienced industry experts who are eager to share their knowledge and mentor you.

Your role will be as dynamic as the company itself. You won't just be writing code in a void; you will see it work. You will split your time between developing our low-code platform at the office and implementing projects in the field at our clients' sites. This is a unique opportunity to combine software development with the reality of industrial hardware. If you are looking for a challenge where you can grow fast, contribute to a sustainable industry, and see the tangible results of your work: we are looking for you.

Politie Police

CONTACT

✉ jobinfo@police.belgium.eu

☎ +32 2 237 23 72

ABOUT US

At the Police, we work every day to create a safer society. We offer careers where your work truly matters — where cutting-edge technology meets real-world impact. We stay connected to the community while combining traditional policing with innovative solutions.

For ICT professionals, this means applying your expertise in an environment where securing systems goes hand in hand with protecting people.

Ready to make a difference in digital and physical security? Join us to help shape a safer future.

OUR OFFER

We offer multiple paths: from internships and technical support roles that keep our systems running, to specialized positions where you actively fight cybercrime. Join teams that secure critical infrastructure, develop digital tools for operational units, and investigate hacking, online fraud, and sabotage.

You'll work with cutting-edge technology, collaborate across disciplines, and benefit from training, career growth, and modern equipment. Whether you want to support operations or confront cybercriminals directly, your expertise makes a real impact.

Ready to put your skills to work? Explore opportunities at www.jobpol.be and help build a safer digital future.

Primetals Technologies Belgium

📍 Drogenbos

🌐 <https://www.primetals.com>

CONTACT

✉ Jobs.be@primetals.com

☎ +32 473 65 84 40

ABOUT US

With over 7,000 employees worldwide, Primetals Technologies is a global leader in plant engineering & lifecycle services for the metals industry. We design and deliver cutting-edge solutions for steel production, combining decades of experience with the latest innovations in automation, electrification, and digitalization.

Our Belgian office in Drogenbos is home to a close-knit team of about 40 experts, working on some of the most challenging and high-impact industrial projects in the region. Despite our global reach, our Belgian team maintains a family-like atmosphere, where collaboration and personal growth go hand in hand.

In our projects we typically deal with:

- Complex automation systems, controlling hundreds of motors and thousands of signals with high precision
- High-power drive systems up to 15MW for a single motor
- Energy distribution and optimization in low and medium voltage systems

If you're passionate about technology, large-scale engineering & sustainability in a strategic economic sector, Primetals Technologies offers a unique opportunity to make a real impact

OUR OFFER

- Own the full project journey: from the first offer to engineering, testing, and commissioning, you'll be involved in every stage of complex, high-value projects.
- Master your craft: our projects will transform you into a deep technical expert like nowhere else.
- Balance theory and practice: spend most of your time in our office, but gain hands-on experience with 2–3 months per year on-site in the Benelux and France.
- Grow with us for the long term: we believe in building lasting relationships and investing in your future.
- Expand your horizons: with opportunities to develop nationally and internationally, your career can go as far as your ambition.

Pringles Mechelen

📍 Mechelen

🌐 <http://www.pringlesjobs.be>

CONTACT

✉ pringleshrtalent@kellanova.com

☎ +32 471 61 18 68

ABOUT US

In Mechelen bevindt zich één van de grootste productiesites van Pringles wereldwijd. Dagelijks rollen er meer dan 2 miljoen kokers chips van de band, bestemd voor markten in Europa en daarbuiten. Met 675 medewerkers vormt de fabriek een cruciale schakel in de internationale supply chain van Kellanova (voorheen Kellogg's).

De site werd in 2025 bekroond tot “Fabriek van de Toekomst”, een erkenning voor onze vooruitstrevende aanpak op het vlak van duurzaamheid, digitalisering en innovatie. Zo werd het waterverbruik gehalveerd dankzij een geavanceerd recuperatiesysteem, en kreeg de iconische Pringles-koker een volledig recycleerbare papieren bodem.

Ook energie-efficiëntie staat centraal: meer dan 13.000 zonnepanelen op het dak leveren 15% van het totale energieverbruik, een belangrijke stap richting klimaatneutraliteit.

OUR OFFER

Bij Pringles Mechelen zijn we op zoek naar gedreven industrieel ingenieurs die hun kennis willen inzetten om impact te maken. Als Proces Engineer ben je niet zomaar een schakel in het productieproces – je bent een innovator, probleemoplosser en coach.

We zoeken mensen die:

- Analytisch denken en graag processen doorgronden om ze slimmer en efficiënter te maken.
- Hands-on zijn en energie krijgen van technologie, automatisatie en continue verbetering.
- Samenwerken belangrijk vinden: je werkt niet alleen met collega-ingenieurs, maar begeleidt ook technische operatoren en stimuleert een inclusieve teamcultuur.

Afhankelijk van jouw interesses kan je je verdiepen in proces optimalisatie, project engineering (nieuwe installaties en upgrades) of supply management.

Wat al deze rollen gemeen hebben? Je draagt bij aan kwaliteit, betrouwbaarheid en veiligheid – en je helpt ons elke dag beter te worden.

Bij ons vind je een omgeving waar techniek, duurzaamheid en innovatie samenkomen. Je krijgt ruimte om te leren, te groeien en mee te bouwen aan een fabriek die wereldwijd een verschil maakt.

Projective Group Talent

📍 Diegem

🔗 <https://talent.projectivegroup.com/nl/>

CONTACT

✉ nuskha.semaun@projectivegroup.com

☎ +32 472 06 36 95

ABOUT US

Are you ready to kickstart your career? At Projective Talent, we don't just offer jobs; we open doors for talent like you. Collaborate with companies passionate about your talent and making a difference, as we match your story, potential and ambitions with the perfect fit.

Developing your talent is our main focus, offering a combination of support, coaching, training, but also competitive remuneration, resulting in a unique employee experience and a steep learning curve.

We take pride in our flat organisational structure, our hands-on, supportive and inclusive community and our commitment to everyone's well-being, diversity and corporate social responsibility.

Your career journey is as unique as you are, so let us help you shape it. Whether you aspire to tackle diverse challenges, build a long-term career at one of our talent partners, or explore short-term assignments, we will guide you to success. So let's talk!

OUR OFFER

Projective Talent is part of Projective Group, but we don't do things the typical way. We're not a recruiter. We're not just a consultancy. We're a launchpad for ambitious minds. You're in the driver's seat of your career, and we're here to support your journey.

Here's what you can expect from us:

We offer a competitive salary and a flexible mobility budget (yes, including the option of a company car or bike leasing). You'll also get meal and eco vouchers, an individual training budget, and bonus opportunities—because we believe great work should be rewarded.

You'll enter one of our Smart Programmes, based on where you are in your career and where you want to grow.

Based on your skills, your ambitions, and your personality, we'll look for the right client match together.

You'll be coached throughout the journey by your very own Talent Development Officer, someone who's genuinely there to help you thrive.

We promise you'll never feel like you're on your own. Expect regular learning sessions, social events and a close-knit community that always has your back.

ABOUT US

OUR PURPOSE

Continuously improve the quality of all systems, making people happier to create exceptional products.

OUR MISSION

We empower organizations to deliver exceptional software by improving its quality through test automation solutions, agile processes, and expert guidance. We strive to make their stakeholders happier by ensuring their software products meet the highest quality standards.

WHAT WE DO

Qteal enhances software quality through automated validation, embedded software design, and Agile & Scrum implementation. We integrate seamlessly with teams, focusing on pragmatic, value-driven development in a self-steering, human-centered way.

Meet Our Expert Team

18 dedicated professionals specializing in embedded systems, development, and quality assurance. Each team member brings expertise in delivering production-ready solutions.

OUR OFFER

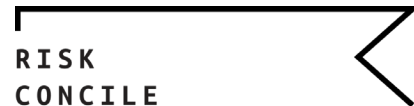

Our Culture & Values

At Qteal, we believe in autonomy, expertise, and collaboration. As a self-steered company, our team members take ownership of their work, driving innovative solutions in software quality. We value open communication, continuous learning, and a strong sense of trust—allowing everyone to grow while making a real impact. Working at Qteal means being part of a team that challenges the status quo, supports each other, and thrives in a dynamic, no-nonsense environment.

RiskConcile

📍 Leuven

🌐 <https://www.riskconcile.com/>

CONTACT

✉ bp@riskconcile.com

☎ +32 472 23 58 65

ABOUT US

At RiskConcile, we deliver smart data, risk, and regulatory solutions for the asset management industry. As a software and services company, we help asset managers across Europe work smarter and achieve faster by combining technology, expertise, and flexibility.

All our solutions are built around the Asset Management (AIF/UCITS), ensuring compliance is seamlessly embedded into our clients' operations. With 100% in-house technology, our own engineers develop every solution locally, giving us full control, rapid adaptability, and consistently high quality.

Our team of financial specialists and data engineers bring deep market knowledge and advanced analytical skills to tackle even the most complex regulatory challenges. Combined with close ties to KU Leuven University, we continuously integrate innovation and AI-powered features to enhance efficiency and future-proof compliance.

OUR OFFER

Full-time employment with the opportunity to join a young, dynamic team in a fast-growing, innovative company. Enjoy a vibrant office culture with a fair and competitive rewards and benefits package, abundant learning budget and growth opportunities, daily lunch, 32 vacation days, exciting team events, and a flexible hybrid work environment.

Open roles:

- Full-stack developer; Design and develop diverse applications using Python (Django) and VueJS. Define robust integration strategies and recommend enhancements to ensure scalability, efficiency, and performance.
- Systems administrator; Take ownership of our IT infrastructure, including network, MDM, Exchange, Intune, Purview, and beyond. You will oversee our security landscape, as well as the rollout and ongoing maintenance
- Risk analyst; Manage the onboarding and follow-up of client requests. Over time, you will grow into a “œSubject Matter Expert“ for a specific product. This role requires staying up to date with European legal requirements that affect our clients, such as risk reporting and climate stress tests.

Sarens

📍 Wolvertem

🌐 <https://www.sarens.com/>

CONTACT

✉ bieke.deboey@sarens.com

☎ +32 456 59 03 22

ABOUT US

Sarens is a global market leader in heavy lifting and engineered transport. With the mindset and values of a family-owned company, we deliver technically complex projects with real impact — projects you don't just talk about but actually see taking shape on site.

Our work is international, hands-on and safety-driven. Guided by our shared mindset “Nothing too heavy, Nothing too high”, we combine engineering expertise with teamwork, quality and pride. At Sarens, projects are real, visible and built by people who take ownership from start to finish.

OUR OFFER

The Young Engineer Program is designed to help you grow from student to confident engineer through real responsibility, practical experience and structured support. From the start, you work on challenging projects, gain on-site exposure and learn by doing. Seeing the direct results of your work in the real world.

You are never left to figure things out on your own. Through guidance, training and feedback, you build technical depth, operational insight and confidence. The program offers structure without limiting your freedom, allowing you to explore different directions and shape your own path within the organisation.

With the mindset “You Own Your Future”, you are encouraged to take ownership of your development, supported by experienced colleagues and a strong learning framework.

The Young Engineer Program includes:

- * Welcome @ Sarens
- * On-site experience
- * Engineering & operational development
- * Challenging projects
- * Personal development
- * NextGen community
- * You Own Your Future

SEW-Eurodrive

📍 Leuven

🌐 <https://www.sew-eurodrive.be>

CONTACT

✉ marcia.meynaerts@sew-eurodrive.be

☎ +32 16 38 63 66

ABOUT US

Wij zijn een Duits familiebedrijf gespecialiseerd in aandrijftechnologie. Wereldwijd hebben we meer dan 23.000 werknemers. In België zorgen 75 werknemers dat onze klanten geholpen worden bij al hun aandrijfproblemen. We geloven sterk in een decentralisatie van onze activiteiten, daarom heeft bijna elk Europees land een eigen Eurodrive (enkel R&D zit alleen in Duitsland).

Onze toepassingen zijn terug te vinden in alle mogelijke industrietakken, wat maakt dat we een zeer divers klantenbestand hebben. De (grote) productiebedrijven, de groentensector, machinebouwers, (vol automatische) magazijnen: SEW zit echt overal!

Een jaar geleden verhuisden we naar een gloednieuw hoofdkantoor op het industrieterrein van Haasrode (productiecapaciteit x10!!!), we verdubbelden de oppervlakte van ons Industrial Gear Competence Center in Marche-en-Famenne en 2 jaar geleden verhuisden we naar een groten, nieuwe Innovation Hall in Kortrijk.

OUR OFFER

Wij zijn een familiebedrijf, en dat voel je in alles wat wij doen: van de manier waarop we met onze klanten omgaan tot hoe we samen aan gemeenschappelijke doelen werken. Bij SEW-Eurodrive is niemand het zoveelste personeelslid, maar een werknemer met eigen kennis, voorkeur en ambities die wij samen proberen waar te maken. Als familiebedrijf investeren wij met veel plezier in onze medewerkers, zowel op technisch, commercieel als interpersoonlijk gebied. We waken over de goede work-life balance van elke SEW'er en zorgen voor ontspanning naast de inspanning :-)

Een vakantiejob anders dan alle andere? Een job tijdens het schooljaar? Of direct als vaste werknemer aan de slag? Het kan allemaal!

Kom langs op onze stand, praat met ervaren SEW'ers en ontdek wat wij allemaal te bieden hebben!

Herinner je je ons nog van de Sectornacht Electromechanica? Fijn! Kom dan zeker eens langs, we gaan je opnieuw een ongewone vraag stellen :-)

ABOUT US

We are a leading technology company focused on industry, infrastructure, mobility, and healthcare. Our purpose is to create technology to transform the everyday, for everyone. By combining the real and the digital worlds, we empower customers to accelerate their digital and sustainability transformations, making factories more efficient, cities more livable, and transportation more sustainable.

A leader in industrial AI, we leverage our deep domain know-how to apply AI – including generative AI – to real-world applications, making AI accessible and impactful for customers across diverse industries.

OUR OFFER

At Siemens, we believe innovation begins with fresh ideas, and that's why we invest in young talent. As a global leader in technology and sustainability, we offer graduates the opportunity to shape the future in fields like digitalization, automation, mobility, etc.

CONTACT

✉ franne.godderis@sirris.be

☎ +32 493 31 06 46

ABOUT US

As the innovation companion for the technological industry, Sirris helps companies to realise their innovation ambitions with hands-on support. At the heart of our services stand over 150 multi-disciplinary experts and a broad set of industrial labs spread over 8 Belgian sites, backed by the country's most extensive innovation network. They ensure about 1,300 organisations a year reap the benefits of technological innovation:

- Innovation in Advanced Manufacturing (robotics, automatization, industry 4.0, additive manufacturing, precision manufacturing,...)
- Product Innovation (smart connected and embedded products, metals, plastics, composites, surface treatments,...)
- Innovation in Circular Economy (material-saving, energy-efficient and sustainable product development)
- Digital Innovation (AI, cyber security, software engineering,...)
- Innovation in Energy Transition (renewable energy technologies, of which wind energy, (green) hydrogen energy and solar energy, and new technologies to achieve cost reduction, trustworthiness, sustainability or performance.

OUR OFFER

Do you want to work in a high-tech environment in which learning is key and discover a world of innovation? At Sirris, you will touch all aspects of applied R&D research, ranging from literary research, feasibility and concept studies, building proof-of-concept, or testing in one of the several labs. Depending on your background, you will be able to work in several technology domains. Check out our vacancies at recruitment.sirris.be! At Sirris, innovation and collaboration are key. You will work in an environment where technological progress and sustainability go hand in hand. Together we make companies ready for the future.

You may expect:

- An exciting and unique position within a dynamic and innovative team.
- The opportunity to work with leading companies and technology experts who are at the heart of the industrial fabric in Belgium.
- A stimulating environment where you can further develop your expertise.
- Flexible working hours and the opportunity to work in one of our offices in Belgium or partially from home.
- A competitive salary package and fringe benefits.

ABOUT US

Looking for a career that blends real impact, growth, and fun?

At Tactical Advisory Group (TAG), we're a fast-growing team of 65+ consultants who turn strategy into tangible results. We don't do fluff—just real, measurable outcomes.

Our blueprint program is designed for ambitious graduates ready to take on challenging projects with a pragmatic, engineering mindset. You'll be part of a culture built on excellence, collaboration, and a strong can-do attitude.

We invest in your development through lifelong learning, hands-on coaching, and meaningful responsibility from day one. At TAG, we build lasting relationships—with clients and each other—based on integrity, transparency, and respect.

We work hard, aim high, and never forget to enjoy the journey. Our inclusive, energetic environment is designed to help you thrive professionally and personally.

No nonsense. Just results.

Join TAG and start shaping success stories—with impact, purpose, and a lot of fun.

OUR OFFER

What do we expect from you?

A strong analytical and problem-solving mindset, fluency in Dutch and English (French is a plus), and a proactive, can-do attitude. You're flexible, results-oriented, and open to working in a direct feedback culture. You embrace change and take ownership from the start.

What can you expect from us?

Projects tailored to your interests and skills, starting as an analyst with real impact from day one. You'll follow a structured learning track, including an intensive boot camp, ongoing trainings, and personal coaching from both your team manager and a dedicated career coach.

You'll be part of a close-knit network of colleagues who support each other and stay connected through bar evenings, monthly activities, and Fridays at the office.

At TAG, we believe in lifelong learning, talent development, and celebrating success. We work hard, grow fast, and have fun doing it.

Join TAG and start your journey with purpose, impact, and energy.

ABOUT US

Discover The Member Company

TMC is an international high-tech consultancy firm with a team of entrepreneurial engineers, scientists, and digital experts from around the world. Together we form a fast-growing and proud community. We offer consultancy services in diverse industries such as high-tech, semiconductors, digital and IT services, energy and renewables, and life sciences, with access to high-profile clients globally.

As pioneers in employeneurship, we have redefined the traditional work model, offering our talented professionals the opportunity to combine the security of a permanent contract with their passion for entrepreneurship.

OUR OFFER

5 principles of Employeneurship

- A long-term working relationship

Enjoy the security of a long-term contract and a stable source of income while getting the opportunity to work at diverse projects.

- Individual profit sharing

Full transparency. That's it. For each of your projects, you know your hourly rate, your costs, and your individual performance-based profit sharing, all in order to stimulate your inner entrepreneur.

- Business cells

Our employeneurs are grouped in business cells based on their technical expertise. They are small, focused and function as high-grade knowledge networks. And as buzzing communities of close colleagues.

- YOUiversity

Every employeneur drives their own career. Together, we make a plan for personal and professional growth. Receive personal coaching and an extensive training budget to keep developing yourself and deliver outperformance at our clients.

- The Entrepreneurial Lab

Work on your technical dreams in our lab. Collaborate with others in multidisciplinary teams to unlock out-of-the-box thinking and innovative ideas as well as entrepreneurial skills.

Tormans

☎ +32 15 79 82 50

ABOUT US

Tormans matcht jouw technisch talent met innovatieve bedrijven via projectsourcing. Werken bij Tormans betekent niet gewoon kiezen voor een technische job, maar voor een carrière. Bij toonaangevende bedrijven in heel België. En met voldoende variatie, want is je ene opdracht afgerond? Dan staat de volgende al voor je klaar. En tegelijk kom je bij Tormans altijd weer thuis!

Tormans is dé referentie voor projectsourcing in België. Onze collega's werken in de petrochemie, chemie, farmacie, metallurgie, productie, energie... Concreet betekent dit dat je als medewerker vast in dienst komt bij Tormans en langetermijnprojecten uitvoert bij onze klanten. Voor klanten gaan we actief op zoek naar profielen die perfect aansluiten bij hun zoekopdracht. Je mag er dus zeker van zijn dat je terechtkomt in een omgeving die perfect bij je past en waar je talent zich zal ontwikkelen. Op onze evenementen leer je je andere Tormans collega's uitgebreid kennen. We zijn een familiaal bedrijf en vinden deze samenhang erg belangrijk.

OUR OFFER

Vanuit de vestigingen in Mechelen, Antwerpen, Geel en Evergem stellen we meer dan 350 ervaren specialisten tewerk bij een 150-tal toonaangevende bedrijven in heel België.

Werken bij Tormans betekent:

- Kiezen voor een carrière, niet enkel een job.
- Jouw kennis maximaal laten renderen.
- Uitgroeien tot een echte innovaTOR.
- Profiteren van boeiende opleidingen.
- Inzicht krijgen in diverse bedrijven en sectoren.
- Terechtkomen in een warm nest. Bij Tormans kom je thuis.

Kortom... It's a match!

Toyota Motor Europe

TOYOTA

CONTACT

✉ TME.HR.Recruitment@toyota-europe.com

☎ +32 2 745 30 50

ABOUT US

Toyota Motor Europe, formed in 2002, oversees the wholesale sales and marketing of Toyota and Lexus across Europe – including countries outside the European Union, such as Russia, Turkey and Kazakhstan. Our Brussels headquarters opened in 1990 and has responsibility for product planning, purchasing, quality, sales planning marketing and communications and production engineering.

Recently it has also been able to lead the development of major model changes for our small and compact vehicles, such as Yaris and Corolla, in areas such as research and development, design and product planning.

OUR OFFER

Drive your future with Toyota!

Eager to learn about the unique Toyota approach?

To apply for our internship programme you must meet the following criteria:

- Master student in the process of obtaining a business or engineering degree.
- Available to do an internship at our Head Office in Evere or at our Technical Centre in Zaventem (both location are near to Brussels, Belgium).
- Available for a duration of maximum 6 months (which is the maximum duration of our internships).
- Willing to accept a Toyota project for the internship.
- We can only accept students with an EEA or Swiss citizenship (not requiring a work permit or visa to be eligible to perform an internship in Belgium)

VERHAERT | MASTERS IN INNOVATION

CONTACT

✉ peter.roels@verhaert.com

☎ +32 3 250 19 00

ABOUT US

Verhaert Masters in Innovation supports and guides companies in their development and innovation processes.

Verhaert is based in Kruibeke, where about 80 engineers and technicians work on a wide variety of development projects, integrating technology, functional and user-oriented design into new products and concepts.

Verhaert On-Site Consulting has over 90 consultants who work at client locations across Flanders and Brussels, strengthening their R&D, product development, design, and engineering teams.

Innovative profiles will certainly find plenty of challenges within the Verhaert Group!

OUR OFFER

As a junior, you enter the world of development and innovation.

You are surrounded and supported by competent colleagues who share the same passion: developing new products—ideally from A to Z, from idea to concepts, trade-offs, proof of concept, prototypes, testing, and finally the production of high-quality products for our clients.

This implies continuous challenges, learning new things, and applying your knowledge in different domains. You will grow in communication and in giving presentations, both to colleagues and to clients. You learn to plan your work, align with teammates, consider budgets, and deal with unexpected obstacles.

We offer you the opportunity to grow—together with amazing colleagues—into an engineer, expert, project engineer, and more.

We coach you in both your technological and personal development. We help you discover and develop your passions. And this is what makes the Verhaert Group truly unique.

And of course, all of this comes with an attractive salary package.

VEROTECH

ABOUT US

Meet and greet the VeroTech team! We're a community of engineers, supported by a strong team of HR, talent acquisition and business managers. We're a Belgian engineering consultancy company, founded in 2010 and located in the inspiring city of Leuven.

What truly drives us, however, is our ambition: to grow as a strong, independent Belgian company while empowering our partners to achieve their most forward-thinking R&D goals by providing exceptional engineering talent. Our engineers work on real, high-impact challenges that directly contribute to tomorrow's technologies, whether that means helping build satellites, advancing medical imaging systems, creating autonomous solutions or enhancing green and energy-efficient technologies.

Our unifying quality? A shared love for innovation and high-tech projects. Our community consists of both Belgian and international talent, working in an inclusive working environment, because in our view, talent is the only thing that matters.

Welcome to VeroTech, a community of engineers building the future.

OUR OFFER

Working at VeroTech?

That means various career opportunities at impactful clients and a variety of tasks. From transportation to aerospace, semiconductors, medical, energy systems, mechatronics, software engineering, robotics. From a technical to a managing position.

Our engineering consultants get to be challenged in many different businesses and sectors. There's even room for teaching, for those who want to inspire juniors. Whatever you might prefer, you can count on the support of our Business Managers and our many available trainings to truly shape your career.

Ready to boost innovation and join our community?

ABOUT US

Al meer dan 50 jaar is Vink een vaste waarde in België. Wie kunststof denkt, denkt Vink. VINK staat voor zekerheid en vertrouwen. Want in een snel veranderende wereld heb je nood aan vaste waarden. Daarom verdelen we kunststof met hart en ziel. De distributeur van de toekomst brengt immers nog altijd mogelijkheden van mens naar mens. Deskundig, klantgericht en integer.

We werken wereldwijd maar we staan overal dicht bij onze klant. Onze mensen doen wat moet, met beide voeten op de grond. Die van Heist-op-den-Berg namelijk. Een plek net zo goed als de volgende, maar toevallig de plaats van waaruit wij mensen verder helpen en waar we thuis zijn. Tussen kunnen en lukken ligt VINK: wij brengen tastbare oplossingen. Eén ding staat vast, we blijven trouw aan onze principes, aan mensen en aan onze planeet. Dat maakt onze oplossingen net zo sterk. Flexibiliteit, lever-snelheid en bereikbaarheid zijn bij ons geen troeven, het zijn vanzelfsprekendheden.

OUR OFFER

Onze GVK afdeling ontwerpt en installeert structuren (leuningen, ladders, trappen, platformen, bruggen) in glasvezelversterkte kunststof voor diverse sectoren. Voor deze afdeling zijn we op zoek naar een Junior Project & Sales Engineer. Als Junior Project & Sales Engineer ben jij een belangrijke schakel in ons team. Je reageert proactief naar zowel nieuwe als bestaande klanten en zoekt altijd naar de beste oplossingen.

Ben je leergierig, enthousiast en op zoek naar een boeiende baan vol afwisseling waarin je kan groeien en waarvoor je je volledig wil engageren? Dan ben jij de persoon die we zoeken! Je geeft vorm aan het ontwerp op basis van overleg met en opmetingen bij de klant. Je maakt de kostencalculatie. Je verkoopt oplossingen die je ook effectief bij de klant gerealiseerd ziet worden.

Bekijk onze vacature op <https://www.vink.be/nl/werken-bij-vink/vacatures/sales-engineer-gvk-1>.

Als onderdeel van de CFE Group zijn wij dé innovatieve integrator van multitechnieken voor gebouwen en industrie. Wij maken gebouwen slimmer, duurzamer en efficiënter en jij kan daar deel van uitmaken!

Met meer dan 1.000 enthousiaste collega's realiseren we projecten die écht impact hebben: van slimme gebouwtechnieken tot industriële automatisering en robotisering.

Bij VMA draait alles om samenwerking, kwaliteit en vooruitgang. Hier krijg je de ruimte om initiatief te nemen, jezelf te ontwikkelen en mee te bouwen aan technologie die de toekomst vormgeeft.

OUR OFFER

Bij VMA krijg je niet alleen een job, maar een springplank naar een boeiende carrière. Jouw groei staat centraal: je krijgt ruimte om initiatief te nemen en jezelf te ontwikkelen. We bieden een aantrekkelijk loonpakket met extralegale voordelen en een flexibel cafetariaplan dat meegroeit met jouw behoeften. Via opleidingen en coaching blijf je leren en bouw je aan een toekomst vol kansen. Bovendien kom je terecht in een open, collegiale werkomgeving waar samenwerking en vooruitgang centraal staan.

Klaar om jouw talent te laten groeien in een bedrijf met impact? Ontdek de VMA-drive en maak mee het verschil!

Vulcain Engineering Belgium

📍 Brussels

🔗 <https://www.vulcain-eng.com/en>

CONTACT

✉ nicolas.bertrand@vulcain-eng.com

☎ +32 491 37 77 03

ABOUT US

Vulcain Engineering is a group specialized in the energy sector that supports companies active in Renewable & Nuclear Energy, Process & Infrastructure through our Study Offices and Consultancy services. Vulcain Engineering Group is positioned as a transformation partner thanks to its ultra-specialization in strategic sectors which positively impact the transformation of our society and supports its clients in their transformation towards more sustainable and responsible models. Vulcain supports its clients throughout the entire life cycle of their projects, from design to commissioning, by integrating constructability and safety requirements right from the design phase.

In Belgium, our activities focus on consultancy services, delivering expertise in three main areas:

- Energy/Infrastructure
- Gas Renewables & Processes
- Life Sciences

OUR OFFER

With offices based in Brussels, Leuven, and Ghent, and clients spread all over the country, we address key projects in the Belgian industry, offering our consultants the opportunity to work on challenging topics and discover different areas during their time at Vulcain.

At Vulcain, your development is a key element in the experience and this is why we created the Team Management structure. As a consultant, you will have one business manager responsible for your career follow-up, and one Team Manager supporting you for any matter at the client site, making sure that you benefit from the best environment possible to learn and grow.

Why would you apply?

- A competitive package including gross salary paid over 13,92 months and advantages such as a company car (and fuel/electrical card), representation fees, insurances, meal vouchers, a sectorial bonus.
- A tailored career path within the company : opportunities to discover different business units, training, follow-up from your business manager, and a development evaluation every year.

Watt4ever

CONTACT

✉ charlotte.de.deken@witteveenbos.com

☎ +32 3 286 75 75

ABOUT US

Witteveen+Bos Belgium: ingenieurswerk is mensenwerk.

Bij Witteveen+Bos draait ingenieurswerk om meer dan cijfers en techniek. Het draait om mensen die samen oplossingen bedenken voor de grote uitdagingen van vandaag.

Van klimaatverandering tot energietransitie, van gezonde steden tot circulaire economie, wij helpen onze klanten om duurzaam vooruit te gaan.

Wie we zijn?

We zijn een multidisciplinair advies- en ingenieursbureau met Nederlandse roots en sinds 2008 stevig verankerd in België. Vanuit onze kantoren in Antwerpen, Steenokkerzeel, Gent en Vilvoorde werken we voor overheden, havenbedrijven, industrieën, projectontwikkelaars en aannemers.

We denken mee op elk niveau: van strategie tot ontwerp en uitvoering.

Wat ons typeert?

Bij ons vind je geen strakke hiërarchie of hokjesdenken.

We geloven dat mensen het best tot hun recht komen wanneer ze ruimte krijgen om te ondernemen, hun talenten te gebruiken en elkaar te versterken.

Zo ontstaat een werkomgeving waar ideeën groeien en innovatie vanzelf volgt.

OUR OFFER

Samen verder bouwen?

Wil jij met jouw talent mee bouwen aan een betere wereld?

✉ recruitment@aetherspace.be

ABOUT US

The Aether Student CubeSat team brings together young engineers who are passionate about space technology. We are designing a CubeSat: a nanosatellite small enough to hold in your hand. In the past decade, the CubeSat standard has enabled countless new innovations in the space industry, and we are determined to uphold this tradition! Aether is focusing on the area of re-entry: creating the technology that will allow future CubeSats to safely re-enter the atmosphere and land on Earth after carrying out their experiments in orbit. This will allow scientists to analyze samples and get even more results out of their experiments, and all this with the affordability and accessibility that comes with the CubeSat platform!

OUR OFFER

Aether is part of the Postgraduate in Technovation: Teams & Start-ups.

This postgraduate gives you the opportunity to gain unique experience in business or entrepreneurship while working on an innovative team project. The program consists of a minimum of 56 credits, with 44 credits for the team project and a minimum of 12 credits for a personal training program.

Emergent Leuven

📍 Leuven

🔗 <https://emergentleuven.be>

CONTACT

✉ gilles.nivelles@emergentleuven.be

☎ +32 494 28 78 73

ABOUT US

Emergent is Leuven's premier student gateway to Data Science, AI, Engineering, and Business. We bridge the gap between academic theory and industry reality, providing a launchpad for the next generation of data-driven leaders. Our mission is to explore the technical, ethical, and commercial dimensions of AI, preparing students to lead in a digital-first economy.

Throughout the year we are very active with a wide range of activities:

- Ember (Technical Excellence): We foster hands-on learning through professor-guided projects, technical workshops, and coding tracks where members build real-world AI systems.
- Consulting & Innovation: Our student teams solve actual data challenges for corporate clients, transforming raw data into actionable business insights.
- Data for Good Challenge (D4GC): We host Belgium's flagship data competition, uniting 150+ students to solve societal issues through data-driven creativity.
- Career Network: We connect top-tier talent with industry leaders through our Career Night, workshops, and a community of ambitious peers.

OUR OFFER

At Emergent Leuven, we offer students a unique platform to bridge the gap between academic theory and industry excellence. We are looking for motivated individuals who want to be interested in the world of Data Science and AI, and want a new challenge!

As part of our team, you will take ownership of high-impact initiatives, such as the Data for Good Challenge or our Consulting projects, where we solve real-world data problems for corporate clients. These roles allow you to refine your technical proficiency while developing essential soft skills in project management, teamwork, and strategic communication.

Joining Emergent means gaining direct access to our premium partner network. You will interact with industry leaders, gain new skills, and build a professional and personal network. Whether you are leading a technical track in our Ember division or organizing our annual Career Night, you will be part of a professional environment that prioritizes growth and innovation.

Join Emergent and build a career-ready profile.

Formula Electric Belgium

📍 Heverlee

🔗 <https://formulaelectric.be/>

CONTACT

✉ daan.arras@formulaelectric.be

☎ +32 486 51 63 55

ABOUT US

Formula Electric Belgium unites a group of motivated students from different campuses of KU Leuven University and Thomas More University College in Belgium. The Formula project offers the team members a working environment in which they have to apply all their technical and soft skills.

Apart from enhancing these skills and bringing their education to a higher level, the practical goal of the project is to design, build and drive an electric Formula Student race car. In this process, they are joined by several partners who help realize the building of the car. After a year of development and manufacturing, the team will participate in several international events of the Formula Student competition.

Applying can be done on our website! Also non engineering students are welcome in our team and can apply, so don't hesitate to visit our website and deliver us your cv and motivational letter!

OUR OFFER

As a member, you'll have the opportunity to:

Hands-On Learning: Gain practical, hands-on experience in designing, building, and racing electric vehicles, applying theoretical knowledge to real-world projects.

Collaborative Environment: Work closely with a diverse team of passionate students from various disciplines, fostering collaboration and networking opportunities.

Innovative Technologies: Engage with cutting-edge technologies in electric mobility, contributing to the development of sustainable transportation solutions.

Professional Development: Enhance your professional skills in project management, teamwork, and problem-solving, preparing you for future career challenges.

Industry Exposure: Access valuable exposure to the electric vehicle industry through partnerships, sponsors, and participation in international competitions.

Leadership Opportunities: Take on leadership roles within the team, honing your leadership and management skills in a supportive environment.

ABOUT US

Humasol is a student-run organization that is dedicated to executing projects centered on international solidarity under the motto “Renewable technology for all!” Our initiatives primarily revolve around delivering renewable technology solutions, such as installing solar panels, solar pumps, cooling systems, and developing agricultural techniques and wastewater treatment facilities. These projects are carried out in close collaboration with local partners, ensuring a seamless transfer of technical knowledge, guaranteeing long-term project sustainability.

OUR OFFER

Throughout the academic year, a dedicated team of students collaborates under the expert guidance of the Humasol board, working closely with both local and international partners. During the summer months, the team embarks on journeys to the project locations in either Africa, Asia or South-America, implementing technology and refining projects in conjunction with our local partners. Aside from project-focused students, our organization boasts a vibrant community of passionate volunteers who participate in various working groups, including communications, finance, and human resources. There’s always an opportunity for you to find your niche and contribute to our cause!

HydroTeam KU Leuven

CONTACT

✉ anton.lintermans@hydroteam.be

☎ +32 471 22 30 35

ABOUT US

Hydro Team KU Leuven is a student-driven engineering team that accelerates hydrogen technology through competition: we build a fully-fledged hydrogen race car and showcase its performance on the track. Our long-term ambition: to compete in the hydrogen class of the 24 Hours of Le Mans in 2030.

The development progresses in phases. In 2024–2025, Team 1 delivered the V0 proof of concept with a working V6 Ford running on hydrogen. In 2025–2026, Team 2 will make the car fully ready to drive and test, transform an existing GT4 into our first official V1 race car, and aim for a hydrogen record lap in September 2026.

Team 3 (2026–2027) builds on that foundation: starting in September 2026, we will optimize the V1 for reliability, performance, and safety, complete the homologation and testing processes, and bring the V1 to its first race in the summer of 2027. In parallel, we prepare the design trajectory of the V2 (kick-off September 2027).

Hydro Team is also a knowledge and research platform: through our Knowledge Hub, we bring together students, researchers, and industrial partners.

OUR OFFER

You can join the Hydro Team in several ways. As a graduated engineer or after completing a bachelor's degree, you can follow the one-year Technovation postgraduate program, where you receive full responsibility to help bring the team closer to its goal of competing in the 24 Hours of Le Mans.

You can also start working with us during your studies, either as a volunteer or, in some cases, even for academic credits. Finally, you can complete your master's thesis with us, allowing you to conduct highly interesting research while contributing to society. We also offer internship opportunities for students from all possible study programs.

All these options are available for the following positions:

- | | |
|-----------------------------------|----------------------------|
| -Team Manager (postgraduate only) | -Aerodynamics Engineer |
| -Business Relations | -Mechanical Engineer |
| -Marketing & Events | -Race Performance Engineer |
| -Powertrain Engineer | -Race Strategy Engineer |
| -Electrical Engineer | -Simulation Engineer |
| -Software Engineer | |

iGEM KU Leuven

✉ info@igemleuven.be

☎ +31 625 37 96 21

ABOUT US

iGEM or international Genetically Engineered Machine is the world's largest and most prestigious competition in the field of synthetic biology. Each year, 400+ university teams participate to combat global problems using synthetic biology. Besides the scientific research, teams are encouraged to thoroughly explore the problem they're solving, engage their project stakeholders and educate local and global communities about synthetic biology. The iGEM KU Leuven team is an international and interdisciplinary team of students, who will work closely together with industry and academic experts to develop their own application. The final results will be presented for an international jury during the annual Giant Jamboree in Paris. We are the KU Leuven team participating in this competition.

OUR OFFER

Are you looking for a new challenge during your studies? A new adventure where you'll meet many interesting people, will do things that you otherwise would never have done during your curriculum, and get to attend the largest synthetic biology event in the world? This is exactly what iGEM KU Leuven offers!

Innoptus Solar Team

CONTACT

✉ info@innoptus.solarteam.be

☎ +32 16 32 97 91

ABOUT US

The Innoptus Solar Team is a group of ambitious engineering students from KU Leuven who design and build a solar-powered car from scratch to compete in international races. Our mission is to push the boundaries of sustainable mobility through innovation, teamwork, and technology. Every two years, we develop a completely new solar car, combining aerodynamic design, advanced materials, and cutting-edge electronics, to compete in world-class competitions such as the Bridgestone World Solar Challenge in Australia, which we have won two times already!

Beyond racing, we aim to inspire the next generation of engineers and entrepreneurs by showing what's possible when young talent, research, and industry join forces. Our project brings together over 150 corporate partners, from start-ups to multinationals, who support us through expertise, materials, and technology.

OUR OFFER

Joining the Innoptus Solar Team means becoming part of one of Belgium's most ambitious student engineering projects. You'll have the opportunity to design, build, and race a world-class solar car, while gaining hands-on experience that bridges the gap between university and industry.

Mechanical Team

Focus on aerodynamics, mechanics, and composites. Take responsibility for manufacturing, assembly, and testing, turning design concepts into real, high-performance components.

Energy Team

Dive into power electronics, battery systems, the electric motor, solar panels, and embedded software. You'll work on the technology that powers the car and maximizes efficiency.

Business & Partnerships Team

Develop skills in marketing, communication, event management, and sponsorship acquisition. Manage real collaborations with major Belgian and international companies.

Strategy Team

Build a digital twin of the car and define the optimal race strategy. Combine data, simulation, and on-track experience to make every kilometre count.

ABOUT US

Leuven's first circular makerspace, the High Tech Lab, serves as a collaborative hub for individuals with diverse backgrounds to foster innovation, bring their visions into reality, and unleash creativity. Through our open labs, participants gain access to cutting-edge tools, including laser cutters, 3D printers, plastic recycling machines, and a fully-equipped electronics lab, among others. Additionally, we host comprehensive workshops tailored for schools, businesses, and various organizations. Our mission is to raise awareness and showcase the limitless potential of creative possibilities.

OUR OFFER

A highly dynamic environment, featuring a diverse team of individuals all driven to share their passion for technology and the circular economy with a wide audience. You can participate in workshops, courses, and open labs. You have flexible access to all our devices and a broad range of expertise from our community. Our strength lies in creative discussions where the seemingly impossible often becomes possible, and we can immediately try things out together. This applies not only to our visitors (such as weekly Young Maker Lab, Open Lab, etc.) but also among our volunteers.

Neurotech Leuven

ABOUT US

Neurotech Leuven is a student-led community where neuroscience meets engineering, medical technology, and computer science. We connect students, researchers, and professionals to advance neurotechnology through hands-on projects and events. Backed by academic mentors and industry partners, we make neurotechnology accessible to students from diverse backgrounds and act as a reliable node in the regional innovation network.

OUR OFFER

We give students hands-on experience through research-driven projects, practical workshops, and collaborations with leading labs and companies in Belgium, and beyond. Our flagship event, Mindseed, showcases current neurotechnology and sparks cross-disciplinary ideas and debate. Members gain mentorship, hands-on experience, and networking opportunities with hiring partners across academia, healthcare, and industry.

There are possibilities for Master's theses and credits for diplomas!

Interested in joining or partnering? Visit our booth to meet the team and explore where your skills fit.

Postgraduate Program in Malting and Brewing Sciences

📍 Leuven

🔗 <https://www.biw.kuleuven.be/en/study/programmes/postgrad/maltingbrewing/home>

CONTACT

✉ steven.simmonds@kuleuven.be

ABOUT US

The Postgraduate Program in Malting and Brewing Sciences at KU Leuven trains people for positions in the malting and brewing industry. Supported by an AB InBev chair, we offer an in-depth scientific education of the entire malting and brewing process, taught by world leading researchers and industry experts.

While studying you will acquire the technical and professional skills to be successful in the industry. Courses include the Raw Materials of Malting and Brewing, Brewing Processing and Equipment, Industrial Microbiology, Sensory Science, Packaging and Business Development, plus practical classes brewing in our pilot breweries and marketing your own products. You will also get acquainted with Belgium's intangible cultural heritage and network with major industry players during company visits.

We are looking for motivated science and engineering graduates who want to learn the science behind malting and brewing to enhance their career trajectory in the industry. With 85% of our alumni working in the industry, the Postgraduate Program is the perfect place to kickstart your career.

OUR OFFER

We are looking for motivated science and engineering graduates who want to learn the science behind malting and brewing to enhance their career trajectory in the industry. Our blended mix of theoretical classes, practical hands on brewing experience, and industry insight makes our graduates some of the most sort after candidates in the malting and brewing industry. With 85% of our alumni working in the industry immediately after graduation, the Postgraduate Program is the perfect place to kickstart your career.

10 TIPS FOR MAKING THE MOST OF A JOB FAIR

BEFORE THE JOB FAIR

- ▶ Draw up a list of the participating companies you are interested in (and check their website, vacancies, social media profiles, etc.).
- ▶ Prepare specific questions based on a few keywords that make the company unique.
- ▶ Reflect on your strengths, added value and what you find important in a job.

DURING THE JOB FAIR

- ▶ Talk to the companies that interest you. Connecting with them in a conversation is more effective than, for example, sending an email.
- ▶ Briefly introduce yourself, so your conversation partners immediately have an idea of who they are talking to.
- ▶ Collect business cards so you can refer to your contact at the job fair when applying for a job.
- ▶ Make sure to check out lesser-known organisations too. They often have interesting vacancies as well.

AFTER THE JOB FAIR

- ▶ Are you interested in applying for a job at a specific company? Or would you like to make an open application? Don't hesitate to do this online. Giving your CV to someone at the job fair doesn't mean you applied for the job.
- ▶ Add the company's contact via LinkedIn.
